Proposal package — Carr EFA Dressing Room Renovation, Sol 26-007

Solicitation: 26-007

Prepared by RK Residential Homes and Commercial Constructions, LLC

Bid: angelo-state-carr-efa-26-007

Purpose. This workbook collects the submission-scaffolding files for this bid: SF-1442 / CSP / HSP fill guides, bid-bond letter templates, RFI cover letters, Reps & Certs pull guides, compliance acknowledgments, and the submission checklist. **USER TO FILL** markers are rendered red so you can audit gaps at a glance. This file is for internal use only — do not send it to the client. The client-facing executive-summary and full-proposal PDFs in this same folder are already placeholder-cleaned.

Attachment A fill guide — Form of Proposal & Execution of Offer

Source: `inbox/opportunities/attachments/2026-05-21/ESBD_516718_1778880829538_26-007 Carr EFA Dressing Room Renocation Attachment A.pdf` and the v3 extract at `exports/calibration_v3/estimate.json bid_packages[3]`.

Attachment A is the **Form of Proposal & Execution of Offer** — the document that turns an unbound estimate into a legally-binding offer. It must be: - Signed in **blue ink** by an officer of the firm with binding authority - Initialed on every page that has an initial block (typically pages with form fields) - Submitted as **the original** (not a photocopy); typically **1 original + N copies** depending on RFCSP submission instructions (**[USER TO FILL: confirm number of copies]**) - Bound at the front of the proposal package, ahead of the cover letter

The v3 extract did not capture every field on the form; this guide is built from the v3 summary + the TTUS Attachment A pattern + general TX RFCSP form conventions. **Read the actual PDF cover-to-cover when filling** — any field in this guide marked with `[VERIFY ON PDF]` is one where the PDF should be the authority.

1. Form structure (TTUS Attachment A pattern)

A typical TTUS Attachment A has these sections in order:

1. **Cover sheet** — solicitation identification (project name, project number, owner, due date)
2. **Form of Proposal** — base bid lump sum + allowance line + unit prices + alternates
3. **Execution of Offer** — the binding signature block + acknowledgments
4. **Certifications** — anti-collusion, debarment, conflict of interest, resident bidder
5. **Acknowledgment of addenda** — numbered/signed list

The v3 extract surfaced the following from Attachment A: - Project location: ASU Station #10924, San Angelo, TX 76909 - Contact: Tracie Howell, Director of Facilities Planning and Construction - Unit prices:

`[{"description": "Include a cash/contingency allowance for unforeseen scope of work.", "unit": "ALLOWANCE", "amount": 25000.0}]` - Referenced specs: `["01030"]` (Div 01 General Requirements — Alternates spec section)

This tells us the form expects: a base bid line + the \$25,000 allowance line + at least the form structure to handle alternates (even if no alternates are required for this project).

2. Section-by-section fill guide

Section 2 — Form of Proposal (the priced offer)

This is the most-error-prone section. The form will have:

2a. Base proposal line

- **What it asks for:** "Lump-sum base proposal price for the work as described in the RFCSP and the Construction Documents, exclusive of the cash/contingency allowance referenced below."
- **What to enter:** The base lump-sum price from 10-price-proposal.md § B (the consolidated price). **Do NOT include the \$25,000 allowance in this number. Do NOT include sales tax** — ASU is sales-tax exempt under Attachment E (TX Form 01-339).
- **Format:** Words AND figures (typical TX RFCSP requires both — "Three hundred eighty five thousand dollars (\$385,000)"). If words and figures differ, the words govern.
- **[USER TO FILL: \$____,____ after final takeoff; spell out in words]**

2b. Cash / contingency allowance line (THE \$25K LINE)

- **What it asks for:** "Cash/Contingency Allowance for unforeseen scope of work."
- **What to enter:** **\$25,000.00** — exactly. This is a fixed dollar value set by the owner; you do NOT bid against it.
- **Critical:** Do NOT roll the allowance into the base price. Do NOT mark up the allowance. Do NOT submit a base bid that is "base + allowance." The form has the allowance as a separate line because it must be a separate line on the executed CSA.

2c. Total proposal

- **What it asks for:** "Total Proposal (Base + Allowance)."
- **What to enter:** Base price + \$25,000.00. This is the sum line; the owner reads this for budget reconciliation against the published budget.
- **[USER TO FILL: \$____,____ + \$25,000 = \$____,____]**

2d. Unit prices

- **What it asks for:** Per-unit prices for owner-directed change items typically requested by TTUS (additional doors, additional outlets, additional SF of flooring, additional fixture, etc.).
- The v3 extract only surfaced the \$25K allowance as a unit-price entry — meaning the actual unit-price grid on the form is [VERIFY ON PDF].
- **Filling guidance:** Once 10-price-proposal.md § D (unit prices) is finalized, transfer each unit price to the form's unit-price grid. Unit prices set the ceiling for change-order pricing during construction — bid

them at full retail (sub cost + your full GC markup), NOT shaved.

2e. Alternates (if any)

- **What it asks for:** Add or deduct prices for each owner-published alternate.
- **Status:** The v3 extract did not surface any alternates on this RFCSP. [VERIFY ON PDF] — if alternates are listed on Attachment A and we skip them, the proposal is non-responsive.
- **Bid only the alternates the form lists.** Do NOT submit unsolicited alternates.

Section 3 — Time of performance

- **What it asks for:** Commitment to substantial completion by 2026-11-02 and to NTP on 2026-07-01.
- **What to enter:** "Proposer agrees to commence work on the Notice to Proceed date (anticipated 2026-07-01) and to achieve substantial completion no later than 2026-11-02."
- The form may also require an initialed acknowledgment of the \$250/day LD rate. Initial it.

Section 4 — Execution of offer (the binding signature)

The signature block typically asks for:

- **Officer's printed name** — [USER TO FILL]
- **Title** — [USER TO FILL: must be an officer of the firm with binding authority — typically President, VP, or designated by board resolution]
- **Signature** — **BLUE INK ORIGINAL** — no blue toner ("must be wet ink")
- **Date** — date of signing
- **Sworn before a notary?** — TTUS forms sometimes require notarization. [VERIFY ON PDF] — if yes, schedule a notary visit on 2026-06-04 with the signing officer.
- **Corporate seal** — if the firm is a corporation with a corporate seal, emboss the seal at the signature block

Section 5 — Certifications (sign each — typically 5–8 of these)

Each certification is a separate sub-section the officer signs. Common TTUS certifications:

Certification	What it confirms	Notes
Anti-collusion	The bid was prepared independently without collusion with other bidders	Required by Tex. Gov't Code

Debarment	The firm is not on any federal or state debarment list	Required by 31 USC § 6101 (federal) + TX Comptroller debarment list
Conflict of interest	The firm has no conflict of interest with ASU/TTUS	Per Tex. Local Gov't Code Ch. 176
TX resident bidder	The firm is or is not a TX resident bidder for purposes of Tex. Gov't Code § 2252.002	Affects reciprocal-preference scoring
Equal employment	The firm complies with EEO laws	Federal + TX
Drug-free workplace	The firm maintains a drug-free workplace policy	Required for TX state work > \$25K per Tex. Gov't Code Ch. 2253
Iran / terrorism divestment	The firm is not on the TX divestment list (Tex. Gov't Code Ch. 2270, 2271)	Required for TX state contracts > \$100K
Boycott Israel	The firm does not boycott Israel	Per Tex. Gov't Code Ch. 2271
Texas Open Records (PIA) acknowledgment	The firm acknowledges public information laws	Per Tex. Gov't Code Ch. 552
HUB acknowledgment	The firm understands the HSP requirement (Attachment D) is due 2026-06-08	Confirms separate submission

[VERIFY ON PDF: list each certification exactly as on the form and sign each]

Section 6 — Acknowledgment of addenda

- The form has a grid for: Addendum # → Date received → Initials
- **Re-check ESBD posting 516718 the day before submission** for any new addenda; addenda issued late are common
- Initial each acknowledgment; if no addenda, write "NONE" and initial

Section 7 — Bonding-agent / surety identification

The form may require:

- Surety company name

- Surety's A.M. Best rating
- Surety's Treasury Circular 570 listing confirmation
- Bonding-agent (broker) name + phone + address

[USER TO FILL: confirm with bonding agent]

Section 8 — Insurance carrier identification

The form may require:

- GL carrier name + AM Best rating
- WC carrier name
- Auto carrier name
- Umbrella carrier name
- Broker name + phone

[USER TO FILL: confirm with insurance broker]

3. Critical fill rules

1. **Blue ink for ALL signatures.** Black ink = automatic rejection at TX state-level RFCSP intake.
2. **Initial every page with an initial block.** Missing initials = automatic rejection at clerk review.
3. **No white-out, no manual corrections.** If a field is wrong, reprint the page.
4. **Legal name consistency.** The firm's exact legal name must match across: - Attachment A (this form) - Bid bond - Insurance ACORDs - W-9 - CIQ - HB 1295 - Surety's power of attorney - The firm's TX Taxable Entity Search record Mismatches in legal name get the proposal rejected at clerk review. Triple-check on 2026-06-04 as part of the assembly QC.
5. **Numbers in words AND figures.** Where the form has both fields, fill both. Words govern if they disagree — make sure they don't.
6. **Don't add unsolicited content.** Don't attach VE proposals, don't add "see attached" notes that go to anything outside what the form requested. Anything beyond what's asked is grounds for rejection as non-responsive.
7. **No leading zeros, no trailing commas.** "\$385,000.00" — not "\$0,385,000.00" or "\$385,000," or "\$385K".
8. **Date format consistency.** Use the date format the form uses (typically MM/DD/YYYY for TX state forms).

4. Fields that MUST be signed in ink (vs. typed or digital)

Field	Ink?	Notes
-------	------	-------

Section 4 — Officer's signature	Yes — BLUE INK ORIGINAL	Wet signature only
Section 5 — Each certification signature	Yes — BLUE INK ORIGINAL	Each separate certification gets a separate signature
Section 6 — Addenda initials	Yes — BLUE INK	Initials only, not full signature
Page initials throughout	Yes — BLUE INK	Every page with an initial block
Notary stamp (if applicable)	Yes — original notary stamp + seal	If notarization is required
Corporate seal (if applicable)	Yes — embossed original	If firm has a seal

The **bid bond** is a separate document but follows the same ink rules — original wet signatures from the surety's attorney-in-fact AND the firm officer, surety's seal embossed, original power of attorney attached.

The **insurance ACORDs** can be issued electronically by the broker but must be **dated within 30 days of submission**.

The **W-9** can be typed and signed in any color ink, but the signature must be original (not a photocopy).

The **CIQ form** must be wet-signed by the officer (TX state pattern).

The **HB 1295 certificate** is e-filed with the TX Ethics Commission and printed; the printed certificate has an EC-assigned certificate number — that number is the "certification" (no separate signature required).

5. QC pass before the form leaves the building

On 2026-06-04 (assembly day), run this 12-point QC pass on the completed Attachment A:

- ☐ Every field is filled (no blanks; "N/A" or "NONE" where appropriate, never empty)
- ☐ Proposer legal name matches W-9, CIQ, HB 1295, bid bond, ACORDs exactly
- ☐ FEIN matches W-9
- ☐ Base proposal price spelled out in words matches the figure
- ☐ Allowance line is exactly \$25,000.00, not rolled into base
- ☐ Total = Base + Allowance, arithmetically correct
- ☐ All unit prices entered (if grid is on the form)
- ☐ No unsolicited alternates added
- ☐ Time of performance acknowledged (NTP 7/1, sub. comp. 11/2)
- ☐ \$250/day LD rate initialed
- ☐ All certifications signed in blue ink

- ☐ Officer's signature wet, blue ink, on the right line
- ☐ All addenda acknowledged with date received + initials
- ☐ Bonding-agent + surety info filled
- ☐ Insurance carrier info filled
- ☐ Notarized if the form requires
- ☐ Corporate seal embossed if the firm has one
- ☐ Initials on every initial block
- ☐ No white-out, no corrections
- ☐ All blue ink (no black, no toner)
- ☐ Number of copies matches RFCSP requirement
- ☐ Original (not photocopy) marked as ORIGINAL on cover sheet

Second-person QC pass by a reviewer who did NOT prepare the form. Two pairs of eyes = at least 80% fewer clerical-rejection findings.

C. 12 days before — milestones from ../timeline.md

The submission checklist depends on these upstream milestones being closed on time. If any slip, the assembly checklist above slips proportionally.

Date	Milestone	Status	Owner
2026-05-22 (today)	RFCSP body re-read; Samuel outreach sent; HUB outreach started; bonding agent notified	■	Bid-prep lead

D. Two-person QC pass (2026-06-04, the day before proposal delivery)

The 2-person QC pass uses two reviewers: the primary preparer + a second reviewer who has NOT been involved in package assembly. Two passes:

Pass 1 — Document-level QC (each item on the checklist above)

For every item A1–A20 in § A.1 AND B1–B5 in § B.1: - ☐ Item is physically present in the envelope - ☐ Item is the original (not a photocopy) - ☐ Item has all required signatures in blue ink - ☐ Item is current (W-9 current calendar year, ACORDs within 30 days, HUB cert within 2 years, etc.)

Pass 2 — Cross-document consistency QC

The single biggest cause of TTUS clerk-level rejection is **legal-name mismatch across documents**. Verify the firm's exact legal name is identical across:

- ☐ Attachment A (Form of Proposal)
- ☐ Cover letter
- ☐ Bid bond
- ☐ Surety's power of attorney
- ☐ Insurance ACORDs (named insured)
- ☐ W-9
- ☐ CIQ
- ☐ HB 1295 (filing entity name)
- ☐ HSP form (Section 1 respondent name)
- ☐ TX Comptroller good-standing printout

And:

- ☐ FEIN matches across Attachment A, W-9, HSP form
- ☐ TX TIN matches across Attachment A, HSP form, TX Comptroller printout
- ☐ Base proposal price spelled in words matches the figure
- ☐ Total proposal = Base + \$25K allowance
- ☐ All addenda acknowledged in Attachment A AND in the cover letter
- ☐ HSP commitment % matches the commitment cited in the cover letter ("30% of subcontracted dollars")
- ☐ HSP self-performance % matches `../05-hsp-plan.md` § B
- ☐ Schedule narrative milestones match the CPM Gantt exhibit
- ☐ Submittal log includes long-lead items per `05-schedule-narrative.md` § 4
- ☐ References in `04-past-performance.md` have current contact info verified within 7 days

Second reviewer initials each item; both reviewers sign the bottom of the checklist.

Bid bond letter template — request to bonding agent

Use this as the formal letter to the bonding agent requesting the bid bond. The agent issues the bid bond on the TTUS-required form; the firm officer and the surety's attorney-in-fact both sign the bond.

Send this letter **immediately** after the final base proposal price is locked at the 2026-06-02 pricing review meeting (per ../timeline.md). Bond delivery target: **2026-06-04 EOD** so the bid bond is in hand for assembly on 2026-06-04 and the proposal delivery on 2026-06-05.
