

Internal use only

Blue Print Constructs

Submission workbook — 2026-05-23

Proposal package — USFWS San Marcos ARC, Sol 140FC126R0017

Solicitation: 140FC126R0017

Prepared by RK Residential Homes and Commercial Constructions, LLC

Bid: usfws-san-marcos-140FC126R0017

Purpose. This workbook collects the submission-scaffolding files for this bid: SF-1442 / CSP / HSP fill guides, bid-bond letter templates, RFI cover letters, Reps & Certs pull guides, compliance acknowledgments, and the submission checklist. **USER TO FILL** markers are rendered red so you can audit gaps at a glance. This file is for internal use only — do not send it to the client. The client-facing executive-summary and full-proposal PDFs in this same folder are already placeholder-cleaned.

Lead: Ravikiran (Rocky) Nudurupati · rocky@blueprintconstructs.com · (469) 213-1838

Internal workbook contents

04	SF 1442 fill-in guide
05	Reps & Certs pull guide — SAM.gov per FAR 52.204-8
06	Bondability letter template
07	Bid Bond — FAR 52.228-1 (Standard Form 24)
08	Davis-Bacon Act compliance acknowledgment
09	Site visit attendance memo
10	Submission checklist — HARD CHECKLIST
11	RFI cover letter — consolidated questions to CO

SF 1442 fill-in guide

Source documents: RFP cover (the SF 1442 itself, pp.2–3 of *SoL_140FC126R0017.pdf*) + RFP §L.1.1 + §L.2.1.2.A (pp.63–65) + GSA SF 1442 instructions.

The Standard Form 1442 (Solicitation, Offer, and Award) is the one signed form in this proposal. Blocks 14–20C are the Offeror's responsibility; the CO completes blocks 21–32 post-award.

Original wet-ink signature in block 20B is the traditional default; the federal government has accepted accepted-form electronic signatures since the 2019 OMB memorandum on electronic signatures, and this RFP does not specifically require wet-ink. Use the firm's standard e-sig flow if one exists; otherwise print, sign in blue or black ink, scan at 300+ DPI, and embed in the Volume I PDF.

A. The pre-printed blocks (blocks 1–13) — completed by the government; verify only

These blocks are pre-filled on the SF 1442 in the solicitation PDF. Do NOT edit. Cross-reference for accuracy before submission:

Block	Field	Expected value (from RFP)
1	This Contract is a Rated Order	(Leave blank — not rated)
2	Contract Number	(Blank pre-award — CO fills at award)
3	Solicitation Number	140FC126R0017
4	Type of Solicitation	■ NEGOTIATED (RFP)
5	Date Issued	2026-05-20
6	Requisition / Purchase Request	0044039660
7	Issued By	FWS, Construction A/E Team 1 / 5275 Leesburg Pike / Falls Church VA 22041 / Code FC1
8	Address Offer To	Submission per RFP p.3 + L.1.2 (EMAIL , not address — both <code>john_ferrall@fws.gov</code> and <code>john_ferrall@ios.doi.gov</code>); also see § L below

9	For information call	Drew Ferrall (Contract Specialist) — (571) 547-3230
10	The Government Requires	Per the SOW + Bid Schedule (Attachment 2)
11	Performance Period	60 calendar days from NTP , start within 10 days of NTP
12	Provisions/Clauses	Per Sections A–M
13a	Sealed offers in original and ___ copies	(Confirm count — likely "1" since submission is electronic) [VERIFY VS RFP P.3]
13b	Submitted in person at	(N/A — electronic submission)
13c	Until	2026-06-22, 5:00 PM EDT
13d	Offer acceptance period (calendar days)	≥ 90 calendar days — enter 90 (or longer if firm prefers — longer is fine; shorter is non-conforming)

B. Offeror-completed blocks (blocks 14–20C) — fill these in

Block 14 — Name and Address of Offeror

Sub-field	Fill with
Legal entity name	RK Residential Homes and Commercial Constructions, LLC dba Blue Print Constructs
Street address line 1	[USER TO FILL]
Street address line 2	[USER TO FILL or blank]
City	[USER TO FILL]
State (2-letter)	[USER TO FILL]

ZIP+4	[USER TO FILL – full 9-digit ZIP; SAM stores it]
-------	--

Match SAM record exactly — any mismatch can trigger payment-routing delay.

Block 15 — Telephone (offeror)

[USER TO FILL: main contact phone, area code + number]

Block 16 — Remittance Address (if different from Block 14)

If payment goes to a different lockbox / wire address than the offeror's street address, fill here. For most small construction firms, **leave blank** (remittance = office address) OR write **"SAME AS BLOCK 14"**.

If different: [USER TO FILL: full remittance address]

Block 17 — CAGE Code & DUNS / UEI

Sub-field	Fill with
CAGE Code	[USER TO FILL: 5-character CAGE]
DUNS Number (deprecated since 2022; SAM uses UEI)	(Optional — write "N/A — see UEI")
Unique Entity ID (UEI)	LM4YHVQ71QG7

Block 18 — Offer Date

[USER TO FILL: actual submission date, e.g., 2026-06-22]

Block 19 — Acknowledgment of Amendments

If amendments (SF 30s) have been issued, list each here:

Amendment Number	Date
[USER TO FILL – e.g., 0001]	[USER TO FILL – e.g., 2026-06-05]

Check SAM.gov for amendments to 140FC126R0017 daily from now through 2026-06-22. Any RFI response from the CO is typically issued as a numbered amendment (SF 30); each must be acknowledged here AND a signed copy of each SF 30 attached to the Volume I PDF.

If no amendments are issued, write **"NONE"** in this block.

Block 20A — Name and Title of Person Authorized to Sign Offer

Field	Fill with
Name (typed, full legal name)	[USER TO FILL]
Title	[USER TO FILL – e.g., "President", "Owner", "Authorized Officer"]

The signer must be a person with **legal authority to bind the entity to the contract** — typically the owner / president / authorized officer per the firm's corporate resolution or LLC operating agreement. NOT the estimator or PM unless they hold delegated signing authority.

Block 20B — Signature

Wet-ink signature in **blue or black ink** OR accepted electronic signature.

If e-sig: use the firm's standard e-sig provider (DocuSign / Adobe Sign / etc.). The PDF should embed the e-sig as a signed digital signature, not just an image of a signature.

If wet-ink: print the SF 1442, sign in ink, scan at ≥ 300 DPI, embed the scanned page in the Volume I PDF.

Block 20C — Offer Date

[USER TO FILL: same as Block 18 – actual submission date]

C. Blocks 21–32 (government-completed at award)

Do NOT fill. These are completed by the Contracting Officer when the contract is awarded.

Block	Field
21	Items Accepted
22	Amount
23	Accounting and Appropriation Data
24	Submit Invoices To
25	Other Than Full and Open Competition
26	Administered By
27	Payment Will Be Made By

28	Negotiated Pursuant To
29	Award of Contract
30	Name of Contracting Officer (Tracy Gamble)
31	United States of America (signature)
32	Award Date

D. Hard rules

1. **Every block 14–20C must be completed.** A blank block on the SF 1442 is a non-conformance.
2. **Block 19 must say "NONE" if no amendments** — do not leave it blank.
3. **Block 20B signature is the legal binding action.** The signer must have authority to bind the entity.
4. **Block 13d acceptance period $\geq$ 90 days.** A shorter period is non-conforming per RFP p.3.
5. **CAGE + UEI in block 17 must match SAM exactly.** Any discrepancy triggers payment-routing problems and casts doubt on responsibility.
6. **Subject line on submission email:** Proposal Submission-140FC126R0017 (RFP p.3, exact wording). Not "Bid Submission", not "Offer for", not "RE:" — exact match.

E. Common SF 1442 mistakes that kill bids

Mistake	Fix
Unsigned block 20B	Re-sign and re-submit — but if past the deadline, the bid is dead. Sign before scanning.
Block 19 amendments not acknowledged	Re-pull SAM for amendments on submission morning; re-stamp SF 1442 if any new amendment landed since the last review
Block 13d acceptance period < 90 days	Type "90" or "120" — never leave at "60" or shorter
Block 17 CAGE/UEI mismatch with SAM	Re-verify against https://sam.gov/ Entity Information

Block 14 entity name doesn't match SAM	Verify legal entity name; minor punctuation differences (e.g., "LLC" vs "L.L.C.") are usually fine but bigger differences trigger CO clarification questions
Wet-ink signature on a scanned form is illegible	Re-sign in black ink; scan at 600 DPI
Multiple SF 1442s in the submission package	Submit ONE signed SF 1442 in Volume I. Do not include a duplicate in Volume II.

F. Verification before submission

- ☐ Block 14 — entity name + address match SAM
- ☐ Block 15 — phone is a working number reachable during East Coast business hours
- ☐ Block 16 — remittance is "SAME AS BLOCK 14" or a verified separate address
- ☐ Block 17 — CAGE + UEI match SAM Entity Information
- ☐ Block 18 — offer date is the actual submission date
- ☐ Block 19 — every SF 30 amendment for this solicitation is listed; a signed copy of each SF 30 is attached to Volume I; if none, write "NONE"
- ☐ Block 20A — typed name + title of signer
- ☐ Block 20B — signature in ink (or compliant e-sig)
- ☐ Block 20C — date matches block 18
- ☐ Solicitation number 140FC126R0017 appears on every page of the form
- ☐ PDF is text-searchable (don't submit a flat scan that's been signed in pen — the CO's clerks need to search)

Reps & Certs pull guide — SAM.gov per FAR 52.204-8

Source: FAR 52.204-8 (Annual Representations and Certifications, OCT 2024 or current version) + RFP §K (pp.52–57) + §L.2.1.4 (p.66).

Why this matters: The proposal invokes FAR 52.204-8(d) "incorporation by reference" of the offeror's SAM-resident reps and certs. If the SAM reps are stale (> 12 months old) OR if any of the specific reps below are missing or incorrectly answered in SAM, **the incorporation fails and the proposal is technically deficient**. This guide is the firm's last chance to catch a stale SAM record before submission.

Cycle: Reps & certs in SAM are on an annual renewal cycle. The system prompts the entity-admin (typically the firm's contracts admin or controller) ~30 days before the annual deadline. If anyone in the firm has dismissed those prompts, this guide will surface that.

A. The 12-step pull

Run this on **Monday 2026-05-24, before noon CT**. Total time: 20–35 minutes for a current SAM record; 30–90 minutes if anything is stale and needs in-line correction.

Step 1 — Log in to SAM.gov as the Entity Administrator

- URL: <https://sam.gov/> → Sign In
- Credentials: the firm's **Entity Administrator** (NOT a regular SAM user). If unsure who that is, the EA shows on the Entity record under "Entity Administrators".
- If MFA is required and the EA isn't immediately available, escalate; only the EA can edit Reps & Certs.

Step 2 — Navigate to Entity Management

- From the Workspace, click **Entity Management** → click the entity (matching the firm's legal name)

Step 3 — Verify Core Data is Active

Field to verify	Expected
Registration Status	Active
Registration Expiration Date	After 2026-09-30 (or sooner if you're inside the renewal window — see Step 4)
Legal Business Name	Matches the firm's legal name exactly
Unique Entity ID (UEI)	12 characters; status = Active

CAGE Code	5 characters; status = Active
Physical Address	Current
EFT / Banking Info	Current (controller / treasurer verifies)
TIN	Matches the firm's IRS TIN (controller verifies)

If **any** of the above shows ■, **stop and fix before continuing**. SAM updates take 3–10 business days to propagate. With submission on 6/22, the latest acceptable start date for a fix is **2026-06-12** (10 business days out). Any fix started after 6/12 may not propagate in time.

Step 4 — Verify Reps & Certs are Within the Annual Cycle

- Reps & Certs in SAM expire 12 months after the last update.
- Find the "Last Updated" date on the Reps & Certs page.
- If the date is **older than ~11 months** (i.e., the renewal will fall due before 6/22), **refresh now**. Refresh takes 30–90 minutes for a small firm with no rep changes.
- If the date is within the last 11 months and no firm circumstances have changed (entity name, NAICS list, size status, etc.), no refresh is needed — just verify the rep answers below.

Step 5 — Verify NAICS 236220 is Registered + Size = Small

- Navigate to **Goods and Services** → NAICS Codes
- Verify **236220 — Commercial and Institutional Building Construction** is in the registered NAICS list
- For NAICS 236220, verify the firm's small-business status is **Small** (under \$45.0M average annual receipts over the trailing 3 years per SBA size standard)
- If the firm has grown above \$45.0M and incorrectly still asserts Small, **do not submit this bid** — it is a 100% Small Business set-aside and a non-small firm is ineligible regardless of any other factor.

Step 6 — Verify the FAR 52.204-8 Reps & Certs (Section K of the solicitation)

Each of the following is a SAM-resident rep that must be **current and accurate**. Each one is also listed in RFP §K. Walk through each one in SAM and verify the answer:

FAR clause	Topic	Expected answer (typical small TX construction firm)
52.203-2	Certificate of Independent Price Determination	✓ (default true)

52.203-11	Certification & Disclosure re: Payments to Influence Federal Transactions	"Has not / will not" (lobbying)
52.203-18	Prohibition on Contracting with Entities that Require Confidentiality Agreements	"Does not / will not require"
52.204-3	Taxpayer Identification	✓ TIN provided
52.204-5	Women-Owned Business (other than Small Business concerns)	Per firm status
52.204-17	Ownership or Control of Offeror	Disclose if foreign-owned or has $\geq 50\%$ control
52.204-20	Predecessor of Offeror	Disclose any predecessor under same TIN
52.204-24	Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (Section 889)	"Does not use" + "Will not provide"
52.204-26	Covered Telecommunications Equipment or Services — Representation	Same as -24
52.204-29	FASCSA Orders Representation and Disclosures	"Reasonable inquiry conducted; does not propose to use covered articles/sources"
52.209-2	Prohibition on Contracting with Inverted Domestic Corporations	"Is not" inverted
52.209-5	Certification Regarding Responsibility Matters	Disclose any tax delinquencies, contract terminations, or convictions in prior 3 years
52.209-11	Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction	"No" (typical)

52.214-14	Place of Performance — Sealed Bidding	(May not apply — this is RFP, not IFB; verify) [VERIFY VS RFP SECTION K]
52.215-6	Place of Performance	Per Block 14
52.219-1	Small Business Program Representations	Small at \$45M NAICS 236220 size standard
52.219-2	Equal Low Bids	(RFP not IFB; may not apply)
52.222-18	Certification Regarding Knowledge of Child Labor	"No knowledge of any"
52.222-22	Previous Contracts and Compliance Reports	List federal contracts > \$10K in prior 12 mo
52.222-25	Affirmative Action Compliance	"Will comply"
52.222-38	Compliance with Veterans' Employment Reporting Requirements	If firm > 50 employees + federal contracts > \$150K, VETS-4212 filed
52.222-48	Exemption from Application of Service Contract Labor Standards	(Construction, not service — typically N/A)
52.222-56	Certification Regarding Trafficking in Persons Compliance Plan	Per firm policy (typically "No" — compliance plan needed if foreign-based)
52.223-1	Biobased Product Certification	Per firm policy
52.223-4	Recovered Materials Certification	"Will comply"
52.223-9	Estimate of Percentage of Recovered Material Content	Per material plan
52.225-2	Buy American Certificate	"Domestic" (default for small TX firm)
52.225-4	Buy American — Free Trade Agreements — Israeli Trade Act Certificate	"Domestic"

52.225-20	Prohibition on Conducting Restricted Business Operations in Sudan — Certification	"Does not conduct"
52.225-25	Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran	"Does not"
52.226-2	Historically Black College or University and Minority Institution Representation	If applicable
52.227-6	Royalty Information	"No royalties claimed" (typical)
52.227-15	Representation of Limited Rights Data	(Typically N/A for construction)
52.232-33	Payment by Electronic Funds Transfer — System for Award Management	EFT data current in SAM
52.247-64	Preference for Privately Owned U.S.-Flagged Commercial Vessels	(Typically N/A for construction)

For each: open the rep in SAM, read the answer, confirm it's still accurate. If anything has changed (new federal contract, new owner, new banking, etc.), update before submission.

Step 7 — Verify EFT / Banking Info (52.232-33)

- Controller / treasurer verifies: ABA routing, account number, account type
- This is the bank account the government will EFT to post-award; mismatch with IRS-registered TIN blocks payment via IPP

Step 8 — Verify Points of Contact

- SAM has multiple POC types: Government Business POC, Electronic Business POC, Past Performance POC
- Ensure each is a real, currently-employed person at the firm with a working email and phone
- The Electronic Business POC must be reachable for award-administration questions

Step 9 — Pull the SAM "Entity Information" PDF

- On the Entity record, click **Entity Information** → **Print** → save as PDF
- This is the document that goes into Volume II as evidence of current SAM registration
- File name suggestion: SAM_Entity_Information_[Legal_Name]_[YYYY-MM-DD].pdf
- Save to ../local/ (gitignored)
- Pull a fresh copy within **24 hours of submission** (i.e., on Sunday 6/21 or Monday 6/22 morning)

Step 10 — Cross-check the SAM record against the Section B Section K reps in the RFP

- Read RFP §K (pp.52–57) end-to-end
- For each clause cited in §K, verify the SAM-resident rep matches the answer that's true for the firm
- If RFP §K asks for a rep that ISN'T in SAM (rare but possible — solicitation-specific reps), prepare to answer it inline in the proposal Volume II per L.2.1.4 / 52.204-8(d): "Offeror has completed the following representations in addition to those resident in SAM..." [VERIFY VS RFP SECTION K]

Step 11 — Run a FASCSA SAM check

- SAM has a FASCSA "Excluded Source List" search — verify no proposed sub or supplier is on it
- For the prime: confirm the firm itself is not subject to a FASCSA order (would have been notified separately)

Step 12 — Document the pull

Create a 1-page "SAM Reps & Certs Verification Memo" for the firm's internal contract file:

Field	Value
Date of pull	[USER TO FILL]
Person who pulled	[USER TO FILL]
SAM registration status	Active
Registration expiration	[USER TO FILL]
Reps & Certs last updated	[USER TO FILL]
NAICS 236220 registered + small?	Yes
Any reps changed since last update?	Yes / No (if Yes, list which)

Any SAM amendments to refresh?	Yes / No (if Yes, scheduled completion date)
Issues flagged for resolution	[USER TO FILL]
Signature	[USER TO FILL]

Save to ../local/SAM_Verification_Memo_[YYYY-MM-DD].pdf.

B. If the SAM record is stale or has problems

Per ../07-risk-register.md R-01: **a stale SAM record makes the bid non-conforming on its face**. Per FAR 52.204-7 + RFP L.1.0, "to be eligible for contract award the offeror must be registered in SAM's database."

Fix-cycle reality:

Issue	Typical fix time
Update Reps & Certs (no entity changes)	1–3 business days to propagate
Update entity name / address (with documentation upload)	5–10 business days
New SAM registration (first time)	7–15 business days (UEI assigned, then CAGE assigned, then Reps & Certs entered)
CAGE code change	5–10 business days
TIN match issue (IRS data mismatch)	5–20 business days (involves IRS, not just SAM)

Latest acceptable start dates from 2026-06-22 submission:

- Reps & Certs refresh: **2026-06-17** (3 business days out)
- Entity name/address update: **2026-06-08** (10 business days out)
- TIN match issue: **2026-05-29** (15 business days out — this includes today's grace period)

If a fix can't realistically complete in time, the responsible call is to **withdraw and not bid** rather than submit a non-conforming proposal.

C. Output for Volume II

What goes into Volume II's "SAM Reps & Certs reference" section (02-volume-II-technical-acceptability.md § B):

1. The signed 1-page "Representations and Certifications" statement per 02-volume-II-technical-acceptability.md § B
2. The fresh SAM Entity Information PDF (pulled within 24 hours of submission per Step 9)
3. Optionally: any solicitation-specific rep that isn't in SAM and was answered inline per Step 10

That's it. Do NOT include a re-typing of the entire FAR §K rep set — incorporation by reference per 52.204-8(d) is the whole point.

D. Who owns this step

- **Primary:** Contracts admin / Entity Administrator on the SAM record
- **Backup:** Controller / treasurer (for banking + TIN verification specifically)
- **Reviewer:** PM-of-record on the bid (verifies the SAM screenshot before insertion into Volume II)

Due back: EOD **Monday 2026-05-24**. If the SAM verification is not green by EOD 5/24, halt all other bid-prep work until it's resolved — there's no point in chasing sub quotes or measurements if the firm can't legally submit the bid.

Bondability letter template

Source: FAR 52.228-15 (Performance and Payment Bonds — Construction) + RFP §L.2.1.3.(b) (p.65) + Treasury Department Circular 570 (<https://fiscal.treasury.gov/surety-bonds/circular-570.html>).

What this is: A letter on **Treasury Circular 570–listed surety company letterhead**, signed by an underwriting officer of the surety, stating that the surety has reviewed the offeror's financial position and is prepared to issue performance and payment bonds at 100% of the contract price upon award. Required as part of Volume II per L.2.1.3.(b) and M.1.4.B.2 (bondability is one of the Pass/Fail technical-acceptability factors).

What this is NOT: The bid bond itself (covered in 07-bid-bond-form-template.md). The bid bond is a separate instrument also issued by the surety, accompanies Volume I, and guarantees that if the offer is accepted, the offeror will execute the contract and furnish the P&P bonds.

A. Hard requirements for the letter

The CO will check each of these. A letter missing any one is not bondability evidence and the bid Fails on M.1.4.B.2:

- [] **Surety company letterhead** — not the broker's, not the firm's
- [] **Surety company name** explicitly stated
- [] **Surety listed on Treasury Circular 570** — confirm at <https://fiscal.treasury.gov/surety-bonds/circular-570.html> before requesting
- [] **Surety's NAIC code + state of domicile**
- [] **Surety's underwriting limit** (the per-bond authority on Circular 570) $\geq$ this contract magnitude — the underwriting limit must comfortably exceed \$250K (T-570 limits are usually in the millions)
- [] **Statement of intent:** "Upon award of the referenced contract, [Surety Name] is prepared to issue Performance Bond and Payment Bond, each in the penal amount of 100% of the original contract price, on Standard Forms 25 and 25A respectively, naming [Offeror Name] as Principal and the United States of America as Obligor."
- [] **Solicitation number** referenced: 140FC126R0017
- [] **Project description** referenced: USFWS San Marcos ARC, Rehabilitate Shop & 2 Stall Garage Building
- [] **Magnitude / contract value** referenced: not to exceed \$250,000 (or specific bid amount once locked)
- [] **Single-project bonding capacity** stated (must be $\geq$ contract magnitude — typically a multiple)
- [] **Aggregate bonding capacity** stated (must accommodate the firm's current bonded backlog + this project — typically a much larger figure)
- [] **Bid bond** also addressed in same letter or accompanying letter: "[Surety Name] has issued or is prepared to issue a Bid Bond on Standard Form 24 in the penal amount of 20% of the bid price or \$1,000,000, whichever is less" (per FAR 52.228-1)

- [] **Attorney-in-fact signature** (NOT a broker signature) — the surety's authorized representative, with a Power of Attorney attached if the AIF is not a corporate officer
- [] **Letter dated** within 60 days of submission (preferably within 30 days)
- [] **Notarized** if surety / CO requires (most surety letters are not notarized; the bid bond and P&P bonds ARE; check with surety)

B. Letter template — for the surety to issue

Provide this template to the bonding agent / surety along with

../outreach/04-email-bonding-agent.md. The surety underwriter will adapt to the surety's house letterhead and language conventions. The substantive elements above must remain.

[SURETY COMPANY LETTERHEAD] [Date – within 30 days of 2026-06-22] U.S. Fish and Wildlife Service Construction A/E Team 1 5275 Leesburg Pike Falls Church, VA 22041 Attention: Tracy Gamble, Contracting Officer RE: Bondability – Solicitation 140FC126R0017 San Marcos Aquatic Resources Center Rehabilitate Shop & 2 Stall Garage Building San Marcos, TX 78666 Contracting Officer: [Surety Company Name] ("Surety"), a surety company listed on the U.S. Department of the Treasury Circular 570 (NAIC Code: [NAIC]; State of Domicile: [State]), with single-project underwriting authority of \$[Underwriting Limit] per FAR 28.202-1 / Circular 570, has reviewed the financial condition and bonding history of [Offeror Legal Name] ("Principal"), [Offeror Address], CAGE 9LET0, UEI LM4YHVQ71QG7. Based on that review and subject to normal underwriting at time of issue, Surety states the following: 1. BID GUARANTEE. Surety has issued (or is prepared to issue concurrent with the Principal's offer) a Bid Bond on Standard Form 24 in the penal amount of twenty percent (20%) of the bid price or \$1,000,000, whichever is less, in the form required by FAR 52.228-1. 2. PERFORMANCE BOND. Upon notice of award of the referenced contract, Surety is prepared to issue a Performance Bond on Standard Form 25 in the penal amount of one hundred percent (100%) of the original contract price, naming the Principal as Principal and the United States of America as Obligee, in the form required by FAR 52.228-15. 3. PAYMENT BOND. Concurrent with the Performance Bond, Surety is prepared to issue a Payment Bond on Standard Form 25A in the penal amount of one hundred percent (100%) of the original contract price, in the form required by FAR 52.228-15. 4. CAPACITY. The Principal's current bonding capacity with Surety is: - Single-project capacity: \$[Single Project Capacity] - Aggregate capacity: \$[Aggregate Capacity] - Currently bonded backlog: \$[Current Bonded Backlog] - Available aggregate: \$[Aggregate Capacity – Current Bonded Backlog] The available aggregate is sufficient to accommodate the referenced contract at its full magnitude (not to exceed \$250,000). This letter is issued for the purpose of demonstrating bondability to the Contracting Officer in support of the Principal's response to Solicitation 140FC126R0017 and is not an undertaking to guarantee performance prior to contract award. Final bond issuance is subject to (a) acceptance of the Principal's offer by the Contracting Officer, (b) review of the executed contract by Surety, and (c) Principal's continued financial condition at time of bond issuance. Sincerely, _____
Date: _____ [Attorney-in-Fact Name] Attorney-in-Fact [Surety Company Name]
Attachments: - Power of Attorney for Attorney-in-Fact - Treasury Circular 570 entry for [Surety Company Name]

C. Lead time

- **Order date:** Monday 2026-05-24 (with `../outreach/04-email-bonding-agent.md`)
- **Surety underwriting:** 3–5 business days for known clients with current financials on file; 7–14 business days if surety needs updated financials, in-force bond schedule, or other underwriting items
- **In-hand date target: Wednesday 2026-06-17** (5 business days before submission)
- **Hard latest date:** Friday 2026-06-19 (1 business day before submission; 0 buffer)

If the surety can't issue by 6/19, the bid is at risk. Escalate to a second surety relationship if the firm has one.

D. Companion documents the surety also produces

The bondability letter is one of three deliverables from the surety:

Document	Purpose	Form	Where it lives in the proposal
Bondability letter (this file)	Demonstrates surety's commitment per L.2.1.3.(b)	Surety letterhead	Volume II
Bid Bond	The bid guarantee per FAR 52.228-1	SF 24	Volume I (scanned PDF; original may need to follow physically)
P&P bond commitment letter (optional, often combined with #1)	Reiterates P&P commitment at 100%	Surety letterhead	Volume II (paragraphs 2 and 3 of the template above cover this)

Some sureties issue separate letters for items 1 and 3; some combine. The template above combines them. Either format is acceptable as long as the substantive elements are present.

E. Verification before insertion into Volume II

- ☐ Letterhead is the surety company's, not the broker's
- ☐ Surety is listed at <https://fiscal.treasury.gov/surety-bonds/circular-570.html>
- ☐ Surety's underwriting limit $\geq$ contract magnitude
- ☐ Solicitation number 140FC126R0017 referenced
- ☐ All four bond commitments (bid + performance + payment + capacity) addressed

- ☐ Signed by attorney-in-fact (not broker)
- ☐ Power of Attorney attached
- ☐ Letter dated within 30 days of submission
- ☐ No exceptions, conditions, or hedges in the letter language

Bid Bond — FAR 52.228-1 (Standard Form 24)

Source: FAR 52.228-1 (Bid Guarantee, SEP 1996) + RFP §L.2.1.5 (p.66) + GSA Standard Form 24 instructions.

What this is: The Bid Guarantee accompanying Volume I per L.2.1.5. Per FAR 52.228-1(c), the penal amount is **20% of the bid price OR \$1,000,000, whichever is less.**

Form: Standard Form 24 (Bid Bond) is the customary instrument. Other acceptable forms per 52.228-1(c) are listed below.

A. Penal amount calculation

Bid envelope	20% of bid	Penal amount (vs \$1M cap)
\$130,000 (LPTA-aggressive)	\$26,000	\$26,000
\$150,000 (LPTA-thin low)	\$30,000	\$30,000
\$160,000 (LPTA-thin mid — recommended target)	\$32,000	\$32,000
\$170,000 (LPTA-thin high)	\$34,000	\$34,000
\$200,000 (cautious)	\$40,000	\$40,000

Order recommendation: order the bid bond at a penal amount of **\$34,000** (top of recommended LPTA-thin envelope). If the locked bid lands lower, the bond is still valid. If higher, the bond must be re-issued at the new penal amount before submission — this takes 1–2 business days, so finalize the bid amount by **Friday 2026-06-19** to allow re-issue time if needed.

B. Acceptable forms (FAR 52.228-1(c))

The CO will accept any of the following as the bid guarantee:

Form	Description	Practicality for this bid
Bid Bond (SF 24)	Surety-issued bond on Treasury Circular 570 surety	Default — recommended
Postal money order	USPS money order	Impractical at \$30K+

Certified check	Bank-certified check	Ties up cash; possible if firm has cash to spare
Cashier's check	Bank-issued	Same as certified
Irrevocable Letter of Credit (ILOC)	From federally insured financial institution	Acceptable; takes bank 5–10 business days to issue
U.S. bonds / Treasury notes	Pledged Treasury securities	Esoteric; rarely used
Individual Surety per FAR 52.228-11	Personal-asset-pledge by individual surety	Requires asset pledge + CO acceptance; do NOT use without an established individual-surety relationship

For most small federal construction firms, **SF 24 Bid Bond is the default**. The remainder of this guide assumes SF 24.

C. Standard Form 24 — fill-in fields (surety completes most; offeror verifies)

The surety's attorney-in-fact completes most fields. The offeror reviews for accuracy before submission. Fields to verify:

Field	Verify
Principal (offeror)	Legal name, address, signature line for offeror
Surety	Name, address, NAIC code, state of incorporation, Treasury Circular 570 listing
Penal Sum	Numeric AND written ("Thirty-four thousand dollars and no/100 — \$34,000.00")
Solicitation / Bid date	140FC126R0017 / 2026-06-22
Contract description	"San Marcos Aquatic Resources Center, Rehabilitate Shop & 2 Stall Garage Building"
Date of bond	Date of execution by surety (within 30 days of submission)

Bond condition language	Standard SF 24 language: "If the Principal's bid is accepted, the Principal will, within the period specified in the solicitation, execute the contract and give such bond(s) for the faithful performance of the contract as may be specified in the solicitation. Otherwise, the obligation of this bond shall be void."
Principal signature	Signed in ink by an authorized officer of the offeror (same person who signs SF 1442 block 20B is typical)
Principal corporate seal	If firm has one; many small LLCs do not — N/A is acceptable
Surety signature	Attorney-in-fact of surety, with Power of Attorney attached
Surety corporate seal	Raised seal of the surety company

D. Wet-ink original vs. scanned PDF

This is the one place in the proposal where the **wet-ink original may matter** — the surety's raised seal and original attorney-in-fact signature on SF 24 are traditionally a wet-ink, physical-document requirement.

Three options to handle this in an electronic-submission environment:

Option 1 — Electronic bond (e-bond)

- Surety issues an electronic bond via a provider like SurePath, Tinubu, US Surety Services, or surety2000
- E-bond is a digitally signed PDF with verifiable cryptographic seal
- Federal government has accepted e-bonds since 2018 (DoD-class-deviation 2018-O0007 first; then GSA, then most civilian agencies)
- **Confirm with CO if e-bond is acceptable for this RFP** — if surety can issue e-bond, this resolves the paper-original question entirely
- [VERIFY VS RFP SECTION L] — RFP does not explicitly require wet-ink for the bid bond; absence of prohibition + government-wide e-bond acceptance suggests it's OK, but the CO is the authority

Option 2 — Scanned PDF at submission + original mailed to follow

- Scan the wet-ink original SF 24 at ≥ 300 DPI and embed in Volume I
- Mail (or courier) the wet-ink original to the CO's address within 1–2 business days of email submission

- Most COs accept this practice; some require advance notice in the cover letter ("Original SF 24 bid bond mailed under separate cover, expected arrival 2026-06-25")
- Suggested mail-out method: **FedEx Express Saver** or **USPS Priority Mail with tracking**. Do NOT use any service that requires signature at the recipient (federal buildings often won't release a signature)

Option 3 — Hand-deliver original to CO

- For local offerors, hand-deliver the wet-ink original to the CO's office on submission day or the next business day
- The CO's address is in Falls Church VA (5275 Leesburg Pike, Code FC1) — not practical from Texas
- **Skip this option** for a Texas-based offeror

Recommended: Option 1 (e-bond) if the surety supports it. Fallback to Option 2.

E. The Power of Attorney

Every SF 24 issued by a corporate surety carries a Power of Attorney (POA) granting the attorney-in-fact authority to bind the surety. The POA must:

- Be on surety letterhead
- Be dated within a reasonable window (typically not expired)
- Specifically name the attorney-in-fact and the limit of their authority (must be $\geq$ the penal sum of the bid bond)
- Be attached to the bid bond when submitted

Verify POA is included before inserting SF 24 into Volume I. Missing POA = the surety's signature is unauthenticated = bid bond rejected = bid Fails.

F. Treasury Circular 570 verification

Before accepting the bond from the surety, verify the surety is currently listed:

- Visit <https://fiscal.treasury.gov/surety-bonds/circular-570.html>
 - Search the surety company name
 - Verify:
 - Current listing (not removed from T-570)
 - Single-project underwriting limit $\geq$ penal sum of the bid bond (\$34K is trivially small for any T-570 surety, but verify anyway)
 - State of admission includes the federal government's contracting venue (federal contracts: all 50 states + DC + territories)
-

G. Pre-submission checklist for the bid bond piece

- ☐ Surety is on T-Circular-570 (verified day-of-submission)
 - ☐ Penal sum is $\geq 20\%$ of bid price (or \$1M cap, whichever less)
 - ☐ Penal sum is written numerically AND alphabetically
 - ☐ Solicitation 140FC126R0017 referenced on the bond
 - ☐ Principal name + address matches SF 1442 block 14
 - ☐ Surety attorney-in-fact signature present
 - ☐ Surety corporate seal present (or e-bond cryptographic equivalent)
 - ☐ Power of Attorney attached
 - ☐ Bond dated within 30 days of submission
 - ☐ If paper bid bond: scanned at ≥ 300 DPI for Volume I + original mailed/couriered to CO with delivery within 2 business days of email submission
 - ☐ If e-bond: cryptographic signature verifies, surety provider is on the agency's accepted-providers list, e-bond verification URL included in the bond PDF
-

H. What happens to the bid bond after submission

- **If offeror is awarded the contract:** Bid bond is replaced by Performance Bond (SF 25) + Payment Bond (SF 25A) at 100% of contract price. Bid bond is then discharged.
- **If offeror withdraws after bid opening:** Bid bond may be forfeited (up to the penal sum) as liquidated damages for the government's cost of re-soliciting or accepting a higher offer.
- **If offeror is not selected:** Bid bond is discharged when the contract is awarded to another offeror (or solicitation is canceled). Surety releases the underwriting reserve.
- **Acceptance period:** Bid bond stays in force for the offer acceptance period (≥ 90 calendar days per RFP p.3 block 13d). Award typically happens well within that window.

Davis-Bacon Act compliance acknowledgment

Source: FAR 52.222-6 (Construction Wage Rate Requirements) + 52.222-8 (Payrolls & Basic Records) + 52.222-10 (Copeland Act) + RFP §H.15.0 + §H.16.0 + DBA WD TX20260254 (Hays County, Building Construction).

Why include this in Volume II? Strictly, this acknowledgment is not required at proposal stage — DBA compliance attaches automatically when the contract is awarded. However, including a signed 1-page acknowledgment in Volume II:

1. Demonstrates to the CO that the offeror has read and understood the DBA requirements (a soft-positive on the Responsibility-Matters review under FAR 9.104)
2. Documents the offeror's election on fringe-handling (cash vs. plan), removing a routine post-award question
3. Pre-commits the offeror's payroll lead to the certified-payroll cadence and form (WH-347), which the CO will be looking for in the first 2 weeks of performance

Total burden: 1 page, 1 signature. Worth including.

A. The acknowledgment — paste into Volume II as a signed page

DAVIS-BACON ACT COMPLIANCE ACKNOWLEDGMENT Solicitation 140FC126R0017 San Marcos Aquatic Resources Center, Rehabilitate Shop & 2 Stall Garage Building Offeror: RK Residential Homes and Commercial Constructions, LLC dba Blue Print Constructs UEI: LM4YHVQ71QG7 CAGE: 9LET0 Date: **[USER TO FILL: submission date – 2026-06-22]** Offeror acknowledges and agrees, in accordance with FAR 52.222-6 (Construction Wage Rate Requirements), FAR 52.222-8 (Payrolls and Basic Records), FAR 52.222-10 (Compliance with Copeland Act Requirements), and RFP §H.15.0 and §H.16.0: 1. The applicable Davis-Bacon Act Wage Determination is ****WD TX20260254**** (Hays County, Texas, Building Construction), as published by the U.S. Department of Labor on the System for Award Management (SAM.gov) and incorporated into the solicitation as Section J Attachment 3. The Wage Determination in effect on the date of bid opening governs the contract for the duration of performance. 2. Offeror shall pay all laborers and mechanics employed on the work no less than the prevailing wage rates and fringe benefit amounts specified in WD TX20260254, including any modifications in effect on the date of bid opening. 3. ****Fringe-handling election:**** ■ Option 1 – Offeror elects to pay the full fringe benefit amount in cash in the worker's wage envelope (added to the Basic Hourly Rate on each weekly Form WH-347). ■ Option 2 – Offeror elects to pay the full fringe benefit amount to one or more bona fide fringe benefit plans (health insurance, retirement, vacation, apprenticeship) qualified under 29 CFR 5.26 and 5.27. ■ Option 3 – Offeror elects a split: \$____ per hour in cash and \$____ per hour to bona fide fringe benefit plan(s). **[USER TO FILL: check ONE option and complete if Option 3]** 4. Offeror shall submit weekly Certified Payroll on ****Form WH-347**** (or DOL-approved equivalent), accompanied by a ****Statement of Compliance on Form WH-348****, to the Contracting Officer no later than 7 days after the close of each payroll period, for the prime contractor and every tier of subcontractor on the project (FAR 52.222-8 + RFP §H.15.0). 5. Offeror shall post the Wage Determination and the ****WH-1321 Notice to All Employees Working on**

Federal or Federally Financed Construction Projects** at the work site in a place accessible to all workers, for the duration of performance (29 CFR 1.6 + 29 CFR 5.5(a)(1)(ii)). 6. Offeror acknowledges that DBA wage requirements flow down to truck drivers ONLY for time spent (a) directly on the site of the work, or (b) hauling material between the site of the work and an adjacent dedicated supplier facility, in accordance with RFP §H.16.0 and 29 CFR 5.2(j). Long-haul material delivery is not DBA-covered. 7. Offeror acknowledges the prohibitions on improper deductions and kickbacks under the Copeland Anti-Kickback Act (40 USC ch. 31 + 18 USC 874 + 29 CFR Part 3 + FAR 52.222-10). Any payroll deduction other than statutorily required deductions (FICA, federal and state income tax) requires prior written authorization from the worker. 8. Offeror acknowledges that any apprentices employed on the work shall be enrolled in a registered apprenticeship program (DOL Office of Apprenticeship or Texas Workforce Commission) and shall be paid in accordance with FAR 52.222-9 and the registered apprenticeship agreement; non-apprentice workers performing journeyman-level work shall be paid the full journeyman rate. 9. Offeror shall require each subcontractor and lower-tier subcontractor to comply with the DBA, Copeland Act, and FAR 52.222-6 through 52.222-15, and shall include these clauses in all subcontracts. 10. Offeror acknowledges that failure to comply with DBA wage requirements may result in withholding of contract payments, debarment from federal contracting, and personal liability of corporate officers for underpayments to workers (29 CFR 5.12). By signature below, the undersigned, on behalf of the Offeror, acknowledges and agrees to the above. Signature: _____ Date: _____ Name (typed): **[USER TO FILL]**
Title: **[USER TO FILL]**

B. Verification before insertion into Volume II

- ☐ Fringe-handling option selected (Option 1 cash is the default for most TX small contractors on 60-day federal jobs — see ../prevailing-wages.md § D)
- ☐ If Option 2 or 3 selected, confirm the firm's fringe benefit plan(s) are bona fide per 29 CFR 5.26
- ☐ Signed by an authorized officer (same signer as SF 1442 block 20B, or a designated officer with DBA-compliance authority)
- ☐ Date matches submission date

C. What the CO will want to see in the first 2 weeks of performance

If awarded, the CO will look for:

Item	When	Form
First weekly certified payroll	7 days after first work week	WH-347 + WH-348
Posted WD + WH-1321 at job site	First day of performance	n/a

Apprenticeship agreements (if applicable)	Before first apprentice on site	DOL or TWC registered agreement
Sub-tier compliance flow-down language	At sub-contract execution	Sub contract incorporates 52.222-6 through 52.222-15
Truck-driver classification methodology	First payroll with on-site truck driver hours	Documented in payroll narrative

Pre-stage these in the firm's project management system as task templates so the first 2 weeks of performance go smoothly. The CO's first DBA touch-point is the field inspector's review of the WH-347 / WH-348 forms; getting this clean early sets the tone for the project.

D. Pointer back to the detailed mechanics

- WD rates by trade (transcription required from the unreadable WD PDF; or pull machine-readable from SAM): `../prevailing-wages.md § B`
- Fringe-handling deep-dive: `../prevailing-wages.md § D`
- Apprentice rules: `../prevailing-wages.md § E`
- Posting requirements: `../prevailing-wages.md § F`
- Truck-driver DBA coverage: `../prevailing-wages.md § H`

These are firm-internal references and do not get attached to the proposal. Only this signed acknowledgment page goes into Volume II.

Site visit attendance memo

Source: FAR 52.236-27 (Site Visit — Construction) + RFP p.3 + §L (site visit reference).

Use: Pre-formatted memo template to capture findings at the **2026-05-27 OR 2026-05-28** site visit (8 AM – 4 PM CDT). The memo is firm-internal (not submitted in Volume I or II). Its outputs feed:

1. The takeoff (`../takeoff-template.json`) — measurements lock CLIN quantities
2. The CO RFI (`11-rfi-cover-letter.md`) — any new questions surfaced on site
3. The sub-quote requests (`../outreach/05-, 06-, 07-`) — refined scope with measured dimensions
4. The risk register (`../07-risk-register.md`) — any new hazards or DSC indicators

File the completed memo in `../local/` (gitignored).

A. Pre-arrival checklist

- ☐ RSVP confirmed with Katherine Bockrath (Supervisory Biologist, Katherine_Bockrath@fws.gov, (512) 610-5597) per `../outreach/03-email-katherine-bockrath-site-visit-rsvp.md`
- ☐ Arrival window understood (8:00 AM – 4:00 PM CDT)
- ☐ State-issued photo ID for gate sign-in
- ☐ Tools packed per `../04-scope-of-work.md` § D: tape measure (100' steel), laser distance meter, camera, IR thermometer, moisture meter, roof-pitch finder, notebook, sketch pad, 8' step ladder (or confirm extension ladder on site)
- ☐ PPE: safety glasses, hard hat, steel-toed boots, gloves; long pants and long sleeves (it's a fish hatchery; sun + heat in May Texas)
- ☐ Water + sunscreen (4–6 hours outdoors)
- ☐ Vehicle: confirm parking + delivery vehicle access route with Bockrath at sign-in
- ☐ Cell phone with camera + cloud backup; pre-downloaded offline measuring app as backup
- ☐ Copy of the SOW + Appendix 2 photos (printed; tablet acceptable)
- ☐ Business cards for sign-in sheet

B. Memo template — fill out on-site

Save a copy of this template as `../local/site_visit_memo_YYYY-MM-DD.md` and fill out during the visit. Photograph everything before leaving.

C. Post-visit action items (target completion 2026-05-29 EOD)

Action	Owner	Due
Field notes → digital; update ../takeoff-template.json with measured quantities	Estimator	2026-05-29 EOD
Update ../05-bid-schedule-mapping.md § A with refined quantity ranges + measured footprint	Estimator	2026-05-29 EOD
Email any newly-surfaced RFI questions to Drew Ferrall (combine with 11-rfi-cover-letter.md)	PM	2026-05-29 EOD
Re-send sub-quote RFQs (../outreach/05-, 06-, 07-) with measured dimensions instead of placeholders	PM	2026-05-29 EOD
Update ../07-risk-register.md with any new risks (hazmat indicators, joist damage, etc.)	PM	2026-05-29 EOD
Backup all photos to firm's cloud storage	Estimator	Day of visit
File completed memo in ../local/site_visit_memo_YYYY-MM-DD.md	Estimator	Day of visit

D. Independent-price-determination caution

Per FAR 52.203-2: at the site visit, do **NOT** discuss pricing, scope assumptions, or bid intent with any other offeror. The site visit is for measurement and clarification only. If another offeror tries to engage on pricing, politely decline and document the attempt.

If overheard pricing discussion among other offerors, **do not act on what was overheard** but consider documenting the incident in case a post-award protest needs context.

Submission checklist — HARD CHECKLIST

Source: RFP p.3 + §L.1.1 + §L.1.2 (pp.63–64) + §L.2.1 (pp.64–66).

Submission method (verified): EMAIL. This is a FAR Part 15 negotiated RFP. There is no sealed-bid envelope, no public bid opening, no FedEx-vs-USPS decision tree like an IFB. The proposal is two PDFs (Volume I + Volume II) attached to one email, sent to two addresses, copied to one.

The only physical-document question is the wet-ink original of the bid bond (SF 24) — and that's a separate mail-out from the proposal itself if the surety can't issue an e-bond. See `07-bid-bond-form-template.md § D`.

Deadline (verified): 2026-06-22, 5:00 PM EDT. Inquiries / proposals after the deadline are non-conforming and not considered (RFP p.3).

A. T-minus countdown (the day-of-submission schedule)

Day-before (Sunday 2026-06-21)

- ☐ **9:00 PM CT:** Check SAM.gov for any last-minute amendment to 140FC126R0017. If one drops on Sunday, you have until Monday morning to acknowledge it on SF 1442 block 19 + attach the signed SF 30 to Volume I.
- ☐ **10:00 PM CT:** Re-pull SAM "Entity Information" PDF (per `05-reps-and-certs-pull-guide.md` Step 9) so the dated copy in Volume II is fresh within 24 hours
- ☐ Volume I + Volume II PDFs are finalized except for the SF 30 update if one landed Sunday
- ☐ Bid bond SF 24 scanned and embedded in Volume I; original ready to mail Monday morning

Submission day (Monday 2026-06-22)

Time (CT)	Time (EDT)	Action
8:00 AM	9:00 AM	Final SAM.gov check for amendments. Acknowledge any new SF 30 on SF 1442 block 19. Re-export Volume I PDF.
9:00 AM	10:00 AM	Email subject line confirmed: <code>Proposal Submission-140FC126R0017</code> (exact match). Recipients: <code>john_ferrall@fws.gov</code> AND <code>john_ferrall@ios.doi.gov</code> . CC: <code>Tracy_Gamble@fws.gov</code> .

10:00 AM	11:00 AM	2-person internal QC of Volume I + Volume II PDFs (per 01-volume-I-price-proposal.md § G + 02-volume-II-technical-acceptability.md § H). Sign-off on a printed QC checklist + filed in firm's bid file.
12:00 PM	1:00 PM	PDFs locked. Filenames: 140FC126R0017_Part_I_Price_Proposal.pdf + 140FC126R0017_Part_II_Technical.pdf.
12:30 PM	1:30 PM	Original SF 24 bid bond mailed via FedEx Express Saver or USPS Priority Mail with tracking — NOT a service that requires signature at federal building. Tracking number recorded.
3:00 PM	4:00 PM	Compose final email (see § B below). Attach both PDFs. Enable Delivery Receipt + Read Receipt if email client supports. Save draft.
3:30 PM	4:30 PM	SEND. Verify Sent folder shows both PDFs attached + correct recipients.
3:35 PM	4:35 PM	Wait for Delivery Receipts (typically arrive within 10 minutes). If no Delivery Receipt from either address by 3:50 PM CT (4:50 PM EDT), re-send with high-priority flag — DO NOT WAIT FOR 5 PM EDT.
4:00 PM	5:00 PM	DEADLINE. Bid is now locked regardless of receipt status.

4:05 PM	5:05 PM	If for some reason the email did not send (server failure), document the attempt with screenshots. Re-send immediately and contact CO Tracy Gamble at (404) 679-4055 to advise. Late submission protections under FAR 52.215-1(c)(3)(ii) require government-controlled delay to qualify — work email server failures do not qualify, but the documentation is essential.
---------	---------	---

Margin built in: 30-minute buffer between targeted send time (4:30 PM EDT) and deadline (5:00 PM EDT). Use the buffer for receipt verification, not for last-minute editing.

B. Email composition

Subject line (exact wording, no deviation)

Proposal Submission-140FC126R0017

NOT: - ■ RE: Proposal Submission-140FC126R0017 (RE: prefix breaks pattern matching at the CO's intake) - ■ Proposal for Solicitation 140FC126R0017 (RFP p.3 specifies "Proposal Submission") - ■ Bid Submission-140FC126R0017 (RFP says "Proposal", not "Bid") - ■ Proposal Submission - 140FC126R0017 (extra spaces around dash — RFP shows tight format)

Recipients

Type	Address	Reason
To	john_ferrall@fws.gov	RFP p.3
To	john_ferrall@ios.doi.gov	RFP L.1.2 (different from p.3 — RFI #1 in 11-rfi-cover-letter.md asks CO to clarify; until then, send to both)
CC	Tracy_Gamble@fws.gov	Contracting Officer — audit trail

Body (concise — no marketing)

Subject: Proposal Submission-140FC126R0017 Mr. Ferrall (with copy to Ms. Gamble):
 [OFFEROR LEGAL NAME] (UEI [USER TO FILL], CAGE [USER TO FILL]) hereby submits its
 proposal in response to Solicitation 140FC126R0017, San Marcos Aquatic Resources Center
 – Rehabilitate Shop & 2 Stall Garage Building. Attached: 1.
 140FC126R0017_Part_I_Price_Proposal.pdf - Signed SF 1442 (blocks 14-20C) - [N] SF 30
 amendment(s) acknowledged: [list amendment numbers, or "None"] - Schedule of Prices (all
 8 CLINs + grand total) - Executed Bid Guarantee (SF 24 scanned; wet-ink original mailed
 under separate cover via [carrier], tracking [tracking number], expected delivery
 [date]) - Surety bondability and P&P commitment letter - Buy American Certificate (FAR
 52.225-4) 2. 140FC126R0017_Part_II_Technical.pdf - Past Performance volume (2 prior
 similar projects per L.2.1.3.(a)) - Bondability letter (T-Circular-570 surety per
 L.2.1.3.(b)) - SAM Reps & Certs reference per L.2.1.4 + FAR 52.204-8(d) - Davis-Bacon
 compliance acknowledgment Offer acceptance period: 90 calendar days from this submission
 date (SF 1442 block 13d). Offeror confirms: - SAM.gov registration is Active as of
 submission date, NAICS 236220 asserted as Small at the \$45.0M size standard - Bid
 Guarantee is in proper form per FAR 52.228-1 - All 8 CLINs are priced per FAR L.2.1.2.D
 and M.1.9 - No exceptions to the SOW or specifications are taken in this proposal Please
 confirm receipt of this submission. Respectfully, [USER TO FILL: name + title] [OFFEROR
 LEGAL NAME] [Phone] / [Email]

What NOT to put in the body

- Marketing language ("We are excited to...")
- Pricing in the body (pricing lives in the attached Volume I)
- Past-performance descriptions (live in Volume II)
- Any assumption or exception not previously raised via RFI

C. Attachment hygiene

- ☐ Volume I PDF total size ≤ 10 MB (federal email gateways often reject > 10 MB; if Volume I + scanned bid bond + amendments exceeds 10 MB, split into Volume I-a and Volume I-b with clear filenames and note in body)
- ☐ Volume II PDF total size ≤ 10 MB
- ☐ Combined email size ≤ 20 MB
- ☐ Both PDFs are searchable (OCR'd if any scans), bookmarked, and not password-protected
- ☐ Both PDFs are flattened (no editable form fields that could be inadvertently modified by the CO's clerks)
- ☐ PDFs open correctly in Acrobat Reader DC (test on a different machine from the one that produced them)
- ☐ No tracked-changes markup, no metadata indicating "draft", no unresolved comments

D. If the package is delayed / can't be sent

This is a hard deadline (5:00 PM EDT, Monday 2026-06-22). The late-bid exceptions in FAR 52.215-1(c)(3)(ii) are narrow:

Scenario	Exception applies?
Offeror's email server has an outage	■ No — offeror responsible
Internet outage at offeror's office	■ No — offeror responsible
Federal government email server has an outage that prevents receipt	■ Possibly — document and contact CO
Solicitation is amended within 24 hours of deadline and offeror needs time to respond	■ Possibly — RFP must be amended to extend the deadline
Force majeure (natural disaster, etc.)	■ Possibly — but the CO must accept the exception

Practical mitigation:

1. **Send by 4:30 PM EDT** (30-minute buffer)
2. **Have two send paths:** corporate email + offeror's personal/secondary domain email as backup
3. **Have two send devices:** office computer + mobile hotspot + tablet/phone
4. **Print a paper copy of Volume I + Volume II + bid bond** and keep at the office; if all-electronic fails, the CO may accept a paper hand-deliver (very rare, but covers the catastrophic case)

Alternative submission via SAM.gov upload

[VERIFY VS RFP SECTION L] — The RFP does **not** appear to enable SAM.gov direct upload as an accepted alternative submission method. RFP p.3 + L.1.2 both specify email. Do **not** rely on SAM.gov upload as the primary or backup submission method without first confirming with the CO that it is acceptable for this specific solicitation. If in doubt before 6/22, raise as a clarification RFI before 6/8.

E. Post-submission

Hour	Action
Submission + 1 hr	Confirm Delivery Receipts received from both addresses. If neither, escalate to CO by phone.

Submission + 1 business day	If no acknowledgment of receipt email from CO/CS, send a polite follow-up: "Confirming receipt of [OFFEROR]'s proposal dated 6/22; please advise if anything is missing."
Submission + 2 business days	Original SF 24 bid bond should arrive at CO via mail; track via carrier tracking
Submission + 5–10 business days	Optional check-in if the CO had follow-up clarifications on minor or clerical errors
Submission + ~30 days	Award decision typically posted on SAM.gov

F. Hard checklist — final pass before SEND

✓	Item
■	SAM.gov verification green as of 6/21
■	SAM.gov checked for amendments at 8:00 AM CT on 6/22
■	All SF 30 amendments acknowledged on SF 1442 block 19
■	SF 1442 blocks 14–20C all filled, signed in ink or e-sig
■	Schedule of Prices: 8 CLINs, unit + extended + grand total, math verified
■	Bid bond at $\geq 20\%$ of bid price, scanned in Volume I, original in mail
■	Bondability letter on T-570 surety letterhead in Volume II
■	2 past-performance projects fully filled in Volume II
■	SAM Reps & Certs incorporation page signed + fresh SAM printout in Volume II
■	Buy American Certificate signed in Volume I

■	DBA compliance acknowledgment signed in Volume II
■	No exceptions to SOW/specs anywhere in either volume
■	Both PDFs ≤ 10 MB each
■	Both PDFs searchable, bookmarked, flattened
■	Email recipients: 2 To + 1 CC (verified)
■	Subject line: Proposal Submission-140FC126R0017 (exact)
■	Delivery Receipt + Read Receipt enabled
■	2-person QC sign-off filed
■	Sent by 4:30 PM EDT (30 min before 5:00 PM EDT deadline)
■	Delivery Receipts confirmed by 4:50 PM EDT
■	Backup paper copy at the office for catastrophic-fallback

RFI cover letter — consolidated questions to CO

Source: RFP §L.1.3 (p.64) — RFI format requirements + cutoff 2026-06-08, 5:00 PM EDT.

Why consolidated: Send all questions in a single email so the CO can answer once via a single SF 30 amendment, not multiple separate amendments. Federal COs strongly prefer one consolidated RFI per offeror to a stream of one-off questions.

Send by: Monday 2026-06-01 (one week before the 6/8 cutoff). This gives the CO 5 business days to formulate answers and issue an amendment before the cutoff. Per RFP p.3, inquiries "received after the cutoff may not receive a response."

Delivery: Use `../outreach/01-email-tracy-gamble-rfi-consolidated.md` as the email wrapper; this file is the content. Also cc Drew Ferrall (`../outreach/02-email-drew-ferrall-rfi-cc.md`) to both of his email addresses since RFP p.3 vs L.1.2 give different ones.

A. RFI format requirements (per L.1.3.a)

Each RFI must include:

1. Offeror's name
2. Offeror's representative's name, title, email, and phone
3. Clear and concise question / statement
4. References to specific solicitation passage(s), specification section(s) and paragraph(s), and/or drawing(s)

Government responds by amendment to the solicitation (L.1.3.b) — check SAM.gov for amendments daily through 6/22.

B. RFI letter — paste into email body or attach as PDF

```
[OFFEROR LETTERHEAD] [Date – target 2026-06-01] Drew Ferrall Contract Specialist FWS,
Construction A/E Team 1 5275 Leesburg Pike Falls Church, VA 22041 john_ferrall@fws.gov
AND john_ferrall@ios.doi.gov cc: Tracy Gamble, Contracting Officer
(Tracy_Gamble@fws.gov) RE: Request for Information – Solicitation 140FC126R0017 San
Marcos Aquatic Resources Center Rehabilitate Shop & 2 Stall Garage Building Mr. Ferrall
(with copy to Ms. Gamble): In accordance with Solicitation §L.1.3, [OFFEROR LEGAL NAME]
respectfully submits the following Requests for Information for consideration prior to
the 2026-06-08, 5:00 PM EDT cutoff. OFFEROR INFORMATION (per L.1.3.a.1, .2): Name:
[OFFEROR LEGAL NAME] UEI: LM4YHVQ71QG7 CAGE: 9LET0 Representative: [USER TO FILL: name +
title] Email: [USER TO FILL] Phone: [USER TO FILL]
===== RFI #1 –
Proposal-submission email address
===== Reference: RFP
cover page (p.3) and RFP §L.1.2 (p.63) The cover page of the solicitation specifies that
proposals are to be emailed to `john_ferrall@fws.gov`. Section L.1.2 (p.63) specifies
```

the address `john\_ferrall@ios.doi.gov`. Question: Please confirm which address is the operative submission address for proposals due 2026-06-22 at 5:00 PM EDT, OR confirm that submission to both addresses (and copy to the Contracting Officer at Tracy_Gamble@fws.gov) satisfies the submission requirement.

===== RFI #2 – Section B
project description (Pelican Island NWR carryover)

===== Reference: RFP §B pp.6-7 (Project Description block above CLINs 0001-0008) The Project Description block on RFP pages 6-7 describes "Pelican Island National Wildlife Refuge (NWR) Replace Bunkhouse Roof project in Indian River County, Vero Beach, Florida." The CLINs 0001-0008 immediately below the Project Description block, the Bid Schedule (Attachment 2), and the Statement of Work all describe the San Marcos Aquatic Resources Center shop and garage rehabilitation in Hays County, Texas. Question: Please confirm that the Project Description block on pages 6-7 is a non-binding boilerplate carryover from a prior solicitation, and that the CLINs as published (0001-0008) for the San Marcos ARC are the binding scope. If this is being corrected via amendment, please advise when the amendment will be issued so offerors may acknowledge it on SF 1442 block 19.

===== RFI #3 – CLIN 0004
quantity / unit clarification

===== Reference:
Attachment 2 (Bid Schedule) row 4; RFP §B p.7 line 0004; SOW §1.1.A.4 Attachment 2 (Bid Schedule) lists Item 4 as: Unit JOB, Estimated Quantity 3. RFP §B page 7 lists the same item as: Unit JOB, Quantity 1. SOW §1.1.A.4 specifies three (3) exterior personnel doors. Question: Please clarify whether CLIN 0004 should be priced as: (a) Unit price × estimated quantity of 3 (matching Attachment 2), with extended amount = unit price × 3; OR (b) Lump-sum for all 3 doors as a single JOB at Quantity 1 (matching RFP §B p.7); OR (c) Some other arrangement to be specified in an amendment. Offeror's intent absent clarification is to bid per option (a) (the Attachment 2 published format).

===== RFI #4 – Building
footprint, drawings, and existing roof scope

===== Reference: SOW Appendix 3 (placeholder); SOW §4.2.A; SOW §1.1.A.7; SOW §1.6.A; RFP §H.7.0 SOW Appendix 3 is labeled "ORIGINAL DRAWINGS" but contains a placeholder title page only; no drawings are attached to the solicitation. The SOW provides Appendix 2 photographs and approximate dimensions (e.g., ~416 SF of suspended ceiling at §1.1.A.3; ~110 LF of gutter at §1.1.A.6) but does not specify a building footprint or roof area. Questions: (a) Please confirm whether any architectural drawings, structural drawings, or roof plans will be issued via amendment, or whether the SOW + Appendix 2 photographs + offeror's site-visit measurements are the complete design basis. (b) Please confirm the total building footprint area that is to receive new 24-gauge metal roofing under CLIN 0007 (excluding the south-side lean-to/awning per SOW §1.1.A.7), to the extent known. (c) Please confirm whether the existing roof underlayment (if any) is to remain in place under the new panels or is to be removed as part of CLIN 0007. (d) Please confirm the profile dimensions (panel width, rib height, rib spacing, gauge) of the existing metal roof panels, so the replacement profile can be procured as a Buy-American-compliant match per SOW §4.2.A.1.

===== RFI #5 – Gas-line
termination point (CLIN 0005)

===== Reference: SOW §1.1.A.5 SOW §1.1.A.5 specifies "terminate, cap and remove existing gas lines from the

building." The termination point materially affects the gas-licensed subcontractor's scope and pricing. Question: Please confirm the intended termination point(s) for the gas service capping: (a) At the gas-meter outlet (utility-side termination); and/or (b) At the building wall penetration (building-side termination); and/or (c) At an interior shut-off valve; and/or (d) All of the above. Offeror's intent absent clarification is to (a) cap at the meter outlet AND at the building penetration, and (b) remove all interior piping between those two points.

===== RFI #6 – Hazardous materials survey =====

Reference: RFP §H.12.0; SOW §1.6.A; FAR 52.236-2 (Differing Site Conditions) The SOW does not reference any prior asbestos, lead-paint, transite-panel, or other hazardous-material survey of the building. The vintage of the building is not stated in the SOW or RFP. Questions: (a) Has the building been previously surveyed for asbestos (transite panels, pipe insulation, ceiling-tile mastic), lead-based paint, or PCB-containing equipment? If so, please provide the survey results so offerors may incorporate any required abatement into pricing. (b) If no prior survey exists, please confirm that any hazardous materials encountered during the demolition of items 0003 (ceiling grids/tiles), 0007 (existing roofing), or 0005/0008 (gas-line and heater removal) will be treated as a Differing Site Condition under FAR 52.236-2, with the contractor entitled to an equitable adjustment for any abatement work required.

===== RFI #7 – Davis-Bacon WD copy and modification status

===== Reference: RFP §H.15.0; RFP §J Attachment 3 (Davis-Bacon Wage Determination TX20260254, Hays County, Building Construction) The Davis-Bacon Wage Determination PDF attached as Section J Attachment 3 (filename: SAM_-_Davis-Bacon_Act_WD_TX20260254__Hays_County__Building.pdf) contains text-encoding issues that prevent reliable text extraction by standard tools. Offerors can read the document visually but cannot machine-extract the trade rates for cross-checking against SAM.gov's wage-determination service. Questions: (a) Please confirm that WD TX20260254 (the identifier in the attached PDF filename) is the active wage determination for this solicitation, and that the contract will be governed by the WD modification in effect on the date of bid opening (2026-06-22) per 29 CFR 1.6. (b) Please consider re-issuing the WD PDF as a text-readable version via amendment, OR confirm that offerors may rely on the SAM.gov Wage Determinations service entry for TX20260254 as the machine-readable authoritative copy.

===== [OPTIONAL – INSERT POST-SITE-VISIT QUESTIONS AFTER 5/27 OR 5/28] If the site visit on 5/27 or 5/28 surfaces additional questions, append them here and re-send before the 6/8 cutoff: RFI #8 – **[USER TO FILL]** RFI #9 – **[USER TO FILL]**

===== Offeror would appreciate the Contracting Officer's responses by amendment sufficiently in advance of the 2026-06-22 proposal due date to allow incorporation into pricing. Thank you for your attention to these items. Respectfully, _____ **[USER TO FILL: name] [USER TO FILL: title] [OFFEROR LEGAL NAME]** UEI: LM4YHVQ71QG7 CAGE: 9LET0 Email: **[USER TO FILL]** Phone: **[USER TO FILL]**

C. Send timing

- **Target send: Monday 2026-06-01, before noon CT.** This gives the CO 5 business days to formulate answers and issue an amendment by the 6/8 cutoff.
- **Latest acceptable send: Monday 2026-06-08, before noon CT** (cutoff is 5:00 PM EDT same day). Sending on the cutoff day means the CO may receive but not answer.
- **If new questions arise after the site visit (5/27 or 5/28):** combine with this RFI and re-send as a single RFI Rev. 1. Do NOT send the original, then a follow-up; consolidate to a single document.

D. Tracking RFI responses

After sending:

Date	Action
Send + 1 business day	Confirm receipt acknowledgment from CO/CS (informal email)
Send + 3 business days	If no acknowledgment, polite follow-up
Daily through 6/22	Check SAM.gov for solicitation amendments
Each amendment received	Acknowledge on SF 1442 block 19 + attach signed SF 30 to Volume I
6/22 final review	Verify all amendments through that date are acknowledged

If the CO does NOT answer RFI #2 (Section B Pelican Island carryover) or RFI #3 (CLIN 0004 quantity) before submission, note in the Volume I optional cover letter (per 01-volume-I-price-proposal.md § A item 8) that the offeror's bid is based on the published CLINs treating CLIN 0004 as Quantity 3.
