Blue Print Constructs

Submission workbook — 2026-05-28

Proposal package — W50S7626QA001

Solicitation: W50S7626QA001

Prepared by RK Residential Homes and Commercial Constructions, LLC

Bid: cmd-post-ndi-W50S7626QA001

Purpose. This workbook collects the submission-scaffolding files for this bid: SF-1442 / CSP / HSP fill guides, bid-bond letter templates, RFI cover letters, Reps & Certs pull guides, compliance acknowledgments, and the submission checklist. **USER TO FILL** markers are rendered red so you can audit gaps at a glance. This file is for internal use only — do not send it to the client. The client-facing executive-summary and full-proposal PDFs in this same folder are already placeholder-cleaned.

Lead: Ravikiran (Rocky) Nudurupati · rocky@blueprintconstructs.com · (469) 213-1838

Internal workbook contents

04	SF 1442 — section-by-section fill guide
05	Reps & Certs — SAM.gov pull guide
06	Bondability letter — T-Circular-570 surety commitment template
07	Bid Bond — SF 24 fill guide and penal-amount calculation
08	Davis-Bacon Act compliance — WD TX20260270 acknowledgment
09	Site visit attendance memo — pre-formatted for B1672 + B1675
10	Submission checklist — Thursday 2026-06-04
11	RFI Cover Letter — consolidated questions to CO

SF 1442 — section-by-section fill guide

The SF 1442 (Solicitation, Offer, and Award — Construction, Alteration, or Repair) is a federal standard form used as the cover instrument for construction solicitations. The Offeror's responsibility is to fill the **OFFER** portion (Blocks 14–20c). Per Section L paragraph (a)(1):

"Standard Form 1442 completed as follows: Complete Blocks: 14, 15, 17, 18, and 20a-c Complete Blocks 16 and 19 if necessary"

A. SF 1442 Block-by-block

Block 1 — Solicitation Number

Pre-filled by Government. Verify shows: `W50S7626QA001`

Block 2 — Type of Solicitation

Pre-filled by Government. Should show **Negotiated (RFP) Request for Proposal**. [VERIFY VS COVER PAGE]

Block 3 — Date Issued

Pre-filled by Government. Should show **03 MAY 2026**.

Block 4 — Contract Number

Leave blank. Government completes at award.

Block 5 — Requisition / Purchase Request Number

Pre-filled by Government. [VERIFY VS COVER PAGE]

Block 6 — Project Number

Pre-filled by Government. Should show **DDPM262101**.

Block 7 — Issued By + CODE

Pre-filled by Government. Should show 136 AW MSC (or equivalent). DoDAAC = `W50S76`.

Block 8 — Address Offer To

Pre-filled by Government. Submit to per Section L (a)(2): email `136.AW.MSC@us.af.mil` (digital submission, not paper to mailing address).

Block 9 — For Information Call

Pre-filled by Government. Likely Capt Crabtree per SOW §13.1.

Block 10 — Performance of the Work Description

Pre-filled by Government. Title / identifying number / date.

Block 11 — Performance period

Verify the start clause (e.g., "begin within 10 days after award" + "complete within 90 calendar days after receiving NTP"). [VERIFY VS COVER PAGE]

Block 12a — Performance and Payment Bonds Required

[VERIFY VS COVER PAGE] — should be **YES** per FAR 52.228-15.

Block 12b — Calendar days after award to furnish bonds

[VERIFY VS COVER PAGE] — typical 10 calendar days.

Block 13 — Solicitation requirements

[VERIFY VS COVER PAGE] — date and hour offers due. Should show **04 JUN 2026 [HOUR — likely 1500 CDT]**.

Block 13a — Number of copies required

[VERIFY] — but per Section L (a)(2) submission is by EMAIL, so paper copies are not in play. Likely 1 electronic.

Block 13B — Offer guarantee required

[VERIFY VS COVER PAGE — SHOULD BE YES per Section L (a)(2) NOTE].

Block 13d — Min acceptance period (calendar days)

[VERIFY] — typical 90 days. If left blank, default per the SF 1442 instructions to whatever Block 17 says. To be safe, **enter 90 in Block 17**.

Block 14 — Name and Address of Offeror (incl. ZIP)

OFFEROR FILLS. Use SAM-registered legal entity name + SAM-registered address.

Block 14 — NAME AND ADDRESS OF OFFEROR RK Residential Homes and Commercial Constructions, LLC dba Blue Print Constructs [Street address] [City, State, ZIP] CODE: **[USER TO FILL — typically the firm's CAGE]** FACILITY CODE: **[USER TO FILL — typically the firm's facility code or leave blank]**

Block 15 — Telephone Number

OFFEROR FILLS. Include area code, no collect calls.

Block 15 – TELEPHONE NUMBER (Include area code) ([Area]) [###]-[####]

Block 16 — Remittance Address

OFFEROR FILLS *only if different from Block 14.* If same, leave blank.

Block 17 — Acceptance period

OFFEROR FILLS. Insert any number $\geq$ Block 13d minimum (typical 90).

Block 17 – The offeror agrees to perform the work required at the prices specified below in strict accordance with the terms of this solicitation, if this offer is accepted by the Government in writing within [90] calendar days after the date offers are due.

*Default to **90** unless your bid pricing is volatile or you need a longer hold-open period (rare).*

Block 18 — Furnishing Bonds

OFFEROR FILLS.

Block 18 – The offeror agrees to furnish any required performance and payment bonds.

Confirm via signature in Block 20.

Block 19 — Acknowledgment of Amendments

OFFEROR FILLS if any amendments. There is **one amendment** (Amendment 0001):

Block 19 – ACKNOWLEDGMENT OF AMENDMENTS AMENDMENT NUMBER DATE W50S7626QA0010001 [VERIFY VS SF 30 BLOCK 16C – likely 2026-05-12]

Critical to fill. Per FAR 14.405 + SF 30 instructions, "Failure of your acknowledgment to be received at the place designated for the receipt of offers prior to the hour and date specified may result in rejection of your offer." Acknowledge in Block 19 OR by returning a completed SF 30 with Blocks 8 + 15 completed. Don't leave this blank.

Block 20a — Name and Title of Person Authorized to Sign Offer

OFFEROR FILLS. Print name and title:

Block 20a – NAME AND TITLE OF PERSON AUTHORIZED TO SIGN OFFER [Authorized Officer name]
[Title – President / VP / Officer / etc.]

Block 20b — Signature

OFFEROR SIGNS. Wet-ink signature on the printed form, then scan to PDF.

Block 20c — Offer Date

OFFEROR FILLS. Date of submission (= date the email is sent — Thu 2026-06-04).

Block 21 — Items Accepted

Government completes at award.

Block 22 — Amount

OFFEROR FILLS. Total bid amount (sum of CLIN 0001 + CLIN 0002).

Block 22 – AMOUNT \$[**USER TO FILL**] (See Schedule of Prices for CLIN-by-CLIN breakdown)

Block 23 — Accounting and Appropriation Data

Government completes at award.

Block 24 — Submit Invoices to Address Shown In

Pre-filled by Government. Per Section G WAWF clause — submit invoices via WAWF (DoDAAC F87700 Pay Official; W50S76 Issue/Admin; F6J3CE Service Approver/Acceptor).

Block 25 — Other than Full and Open Competition Pursuant to USC

N/A for this set-aside acquisition.

Block 26 — Administered By

Pre-filled by Government. DoDAAC W50S76 per Section G.

Block 27 — Payment Will Be Made By

Pre-filled by Government. DoDAAC F87700 per Section G WAWF.

Block 28 — Negotiated Agreement

Government completes at award.

Block 29 — Award

Government completes at award.

Block 30a–30c

Government completes at award (acceptance signature).

Block 31a–31c

Government completes at award (CO signature).

B. Filled-form summary (the Offeror's contribution)

After fill, the SF 1442 should show:

Block	Filled?	Content
14	YES	Firm legal name + address + CODE (CAGE)
15	YES	Phone
16	NO unless different	(blank if remittance = Block 14)
17	YES	90 (or longer)
18	YES (signature confirms)	(no separate text fill)
19	YES	Amendment 0001 + date
20a	YES	Authorized officer name + title
20b	YES	Signature (wet-ink)
20c	YES	Offer date
22	YES	Total bid amount

C. Common errors

Error	Consequence	Mitigation
Block 14 firm name doesn't match SAM-registered name	Rejected as non-conforming	Cross-check SAM exactly before fill
Block 17 left blank	Defaults to Block 13d minimum	Always enter 90 (or higher if pricing volatile)
Block 19 amendment not acknowledged	"May result in rejection of your offer" per SF 30	Always acknowledge amendments in Block 19
Block 20a signed without printed name above	Sometimes rejected, sometimes corrected by CO	Always print name + title before signing

Block 22 amount doesn't match Schedule of Prices total	CO may flag for clarification	Reconcile before signing
Wet-ink signature followed by scan with low resolution	Sometimes rejected as non-original signature	Use ≥ 300 DPI scan; preserve original wet-ink original on file

D. Final assembly

1. Print blank SF 1442 (the Government-issued PDF)
2. Type or hand-write Blocks 14, 15, (16), 17, 19, 20a, 20c, 22
3. Authorized officer signs Block 20b in wet ink
4. Scan completed form to PDF at ≥ 300 DPI
5. Save filename: W50S7626QA001_SF1442_Blue Print Constructs_[date].pdf
6. Verify the scan is legible (zoom in on each block)
7. Attach to submission email (10-submission-checklist.md)

E. Block 13b — Sealed bid envelope marking

Per Section L paragraph (a)(2), submission is by email — **no sealed envelope is required**. The Block 13B language about "Sealed envelopes containing offers shall be marked to show the offeror's name and address, the solicitation number, and the date and time offers are due" is N/A for email submission. The submission email subject line accomplishes the equivalent labeling per 10-submission-checklist.md.

Reps & Certs — SAM.gov pull guide

Federal solicitations no longer require offerors to submit Representations and Certifications as standalone documents. Per **DFARS 252.204-7998 Alternate A (Deviation 2026-O0043)**, the offeror's submission of a quote with active SAM.gov reps & certs **incorporates them by reference**. The corollary: the SAM.gov reps & certs **MUST** be current and accurate, and the offeror represents (by submission) that they are.

A. The mechanism (DFARS 252.204-7998 Alt A paragraph (g) verbatim)

"(g) The Offeror has completed the annual representations and certifications electronically via the SAM website at <https://www.sam.gov> After reviewing the SAM database information, the Offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in FAR 52.204-7 and paragraph (f) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer, and are incorporated in this offer by reference (see FAR 4.203-1); except for the changes identified below..."

Translation: Submitting the SF 1442 = certifying that SAM reps & certs are current, accurate, complete, and applicable to W50S7626QA001 as of the offer date.

B. What to verify in SAM before submission

B.1 Annual Reps & Certs (FAR 52.204-8 + 52.212-3)

Log in to <https://sam.gov/>, navigate to **Entity Profile** → **Representations and Certifications**. Verify:

#	Item	Where in SAM
1	Last updated date is within 12 months of the offer date	"Last Updated" field on Reps & Certs tab
2	All FAR 52.212-3 paragraphs are completed (no "incomplete" warnings)	Reps & Certs tab
3	NAICS-specific reps (52.204-8(c)(2)(iv)) for 236220 are completed	Reps & Certs tab
4	Small-business size assertion at \$45.0M for NAICS 236220	Size Metrics tab
5	DUNS legacy reference (if SAM still asks)	Entity Information

6	UEI active	Entity Information
7	CAGE active	Entity Information
8	Banking / EFT current	Financial Information
9	TIN matches IRS records	Entity Information
10	No active exclusions on entity name + UEI + key principals	Exclusions search

B.2 DFARS-specific reps & certs (Section K — DFARS provisions)

Verify the following are **on file** (active in SAM annual cycle):

Provision	What it is	SAM section
DFARS 252.204-7016	Covered Defense Telecommunications Equipment or Services — Representation. Offeror represents whether they "do" or "do not" provide covered defense telecom equipment or services.	DFARS rep set
DFARS 252.204-7017	Prohibition on Acquisition of Covered Defense Telecom — Representation. Required only if 252.204-7016 says "does provide".	DFARS rep set
DFARS 252.225-7050	Disclosure of Ownership or Control by Government of a Country that is a State Sponsor of Terrorism. Applies to solicitations expected to result in contracts $\geq$ \$150K.	DFARS rep set
DFARS 252.203-7005	Representation Relating to Compensation of Former DoD Officials.	DFARS rep set
DFARS 252.225-7055	Representation Regarding Business Operations with the Maduro Regime.	DFARS rep set

DFARS 252.225-7059	Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region — Representation.	DFARS rep set
---------------------------	--	---------------

B.3 NIST 800-171 Basic Assessment (DFARS 252.204-7019 + 252.204-7024)

Although the contract is for interior renovation (not Covered Defense Information handling per se), DFARS 252.204-7019 is **incorporated by reference in Section L**. Verify:

#	Item	Where
1	NIST SP 800-171 Basic Assessment posted to SPRS	https://www.sprs.csd.disa.mil/ (login required)
2	Assessment date within last 3 years	Same
3	Score documented (max 110; partial-implementation is OK; positive scores preferred)	Same

If no Basic Assessment is on file, **complete the self-assessment** per the NIST 800-171 control set, then post to SPRS. Standard process; CO can disqualify offers without an SPRS Basic Assessment on file.

B.4 FAR 52.204-7 SAM Registration

Per FAR 52.204-7: "An Offeror is required to be registered in SAM when submitting an offer or quotation, and shall continue to be registered until time of award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation."

Active SAM registration is **gateway**. No SAM = no offer.

C. Changes to specific reps (Block (g) of DFARS 252.204-7998 Alt A)

If any specific rep needs to change for this solicitation only (without updating SAM), DFARS 252.204-7998 Alt A paragraph (g) provides a fillable table:

FAR/DFARS provision	No.	Title	Date	Change

For W50S7626QA001, no rep is expected to change. Leave the table blank in the offer (or simply not submit the form — SAM-by-reference is sufficient).

D. Submission

No separate document is needed in the proposal package. The submission of the SF 1442 itself + active SAM registration = full reps & certs submission.

■ **However, if the Government later asks "show me your active SAM reps & certs as of [offer date]", the firm should be able to produce a printout / PDF export of the SAM Reps & Certs page. Best practice: print/export the SAM Reps & Certs page on the morning of submission and retain in the firm's bid file as proof of currency.**

E. Common pitfalls

Pitfall	Consequence	Mitigation
Reps & Certs > 12 months old	CO may reject offer as non-conforming	Update SAM Reps & Certs immediately if past 12-month cycle (24–72 hours)
NAICS 236220 not registered or not asserted as small at \$45M	Set-aside ineligible	Add NAICS 236220 to registered list; assert small at \$45M; allow 24–72 hours
252.204-7016 not completed (or incorrect)	Offer rejected for covered-defense-telecom non-compliance	Verify the rep status; update if "does provide" + complete -7017 if applicable
SPRS Basic Assessment missing or stale	CO disqualifies for DFARS 252.204-7019	Complete self-assessment per NIST 800-171; post to SPRS
Active exclusion on a key principal	Offeror is automatically excluded from award per FAR 9.405	Check exclusions BEFORE submission; address proactively
TIN mismatch with IRS	Payment delays + SAM flags	Verify and reconcile in SAM

F. Day-of-submission verification

On the morning of Thu 2026-06-04, **before sending the email**, the Contracts Administrator runs a final SAM check:

- SAM Reps & Certs page shows "Updated within 12 months" — **export to PDF**
- Entity Profile page shows **Active** UEI + Active CAGE + EFT current + TIN matches — **export**
- Exclusions search returns 0 hits on entity name + UEI + key principals — **export**
- SPRS Basic Assessment current — **export**
- NAICS 236220 is registered + small at \$45M — **export**

These exports go to the firm's bid-file (NOT in the submission package — they are evidence retained in case CO asks). If any item fails on the morning of submission, **STOP and remediate** before sending the offer.

Bondability letter — T-Circular-570 surety commitment template

A bondability letter is a one-page statement from the firm's surety on the surety's letterhead, indicating willingness to issue Performance and Payment bonds for the W50S7626QA001 contract at award. **Not strictly required at bid** (FAR 52.228-15 requires the actual bonds at award) but **recommended at bid** as a positive differentiator that reduces the CO's risk perception.

A. Template (provide to bonding agent for surety to populate on its letterhead)

[SURETY LETTERHEAD] [Surety address] [Date – should be within 30 days of bid submission]
 Capt D. Jake Crabtree Base Contracting Officer 136th Airlift Wing Mission Support
 Contracting Naval Air Station Joint Reserve Base Fort Worth 1633 Military Parkway NAS
 JRB Fort Worth, TX 76127 Subject: Bondability – Solicitation W50S7626QA001 Alter Command
 Post and Nondestructive Inspection Room Blue Print Constructs (Principal) [Surety name]
 (Surety) Dear Captain Crabtree: This letter confirms that [Surety name] is a corporate
 surety on the U.S. Department of the Treasury's listing of approved sureties (Treasury
 Department Circular 570), with a current single-bond limit of \$[_____] and an
 aggregate-bond limit of \$[_____]. We have reviewed the qualifications of Blue
 Print Constructs (the "Principal"), including the Principal's financial statements,
 contract-execution history, and management capacity. Based on this review, [Surety name]
 is willing to issue, upon award of the captioned contract, the following bonds in
 support of the Principal's obligations: 1. A Performance Bond (Standard Form 25) in the
 penal sum of 100% of the original contract price, naming the United States as Obligee.
 2. A Payment Bond (Standard Form 25A) in the penal sum of 100% of the original contract
 price, naming the United States as Obligee. The bonds will be in firm-commitment form
 and supported by [Surety name]'s good and sufficient corporate surety, as required by
 FAR 52.228-15 (Performance and Payment Bonds – Construction). Issuance of bonds is
 subject to the customary conditions including (without limitation) (a) execution of
 contract documents satisfactory to the Surety, (b) absence of material adverse change in
 the Principal's financial condition, and (c) any specific underwriting conditions noted
 below: [Surety to insert any conditions, or write "None"] The undersigned is authorized
 to commit [Surety name] in this matter. Please contact the undersigned with any
 questions. Sincerely, _____ [Surety Authorized
 Representative name] [Title] [Phone] [Email] [Power of Attorney number, if attached] cc:
 [Bonding agent / broker name] RK Residential Homes and Commercial Constructions, LLC dba
 Blue Print Constructs

B. What to expect from the surety

Element	Standard	Notes
Treasury Circular 570 listing	Required (FAR 52.228-2 + 52.228-15)	Verify at https://www.fiscal.treasury.gov/surety-l

Single-bond limit	Should comfortably exceed bid envelope (e.g., for a \$475K bid, single limit \$500K+)	Surety may issue at lower limit with co-surety arrangement
Aggregate-bond limit	Should comfortably exceed firm's total bonded backlog + this project	Cross-check with surety's underwriting team
Conditions	"None" preferred	If surety adds conditions, address them with bonding agent before submission
Letter date	Within 30 days of bid submission	Older letters may be rejected as stale
Authorized signatory	Surety officer with authority + Power of Attorney number	Verify against surety's POA register

C. Submission

Method	Notes
Attach to submission email	Filename: W50S7626QA001_BondabilityLetter_Blue Print Constructs.pdf
Use as supplement to Bid Bond	The bondability letter does NOT replace the bid bond (SF 24); both are submitted with the offer

D. Why include at bid

Section M (a)(iii) Past Performance evaluates "personal knowledge of an Offeror" by the CO. A new firm's strongest defense against an unfamiliar CO is to demonstrate financial+execution credibility through: 1. Strong CPARS history (if available) 2. **Bondability letter from a Treasury-approved corporate surety** (this is the second-strongest signal — surety underwriting validates the firm's financial + management capacity independently) 3. Reference letters from prior customers 4. Key personnel CVs

E. Bid bond vs. Performance/Payment bond — clarity check

Bond	Required at	Form	Penal amount
------	-------------	------	--------------

Bid Bond	WITH the offer (Section L (a)(2) NOTE)	SF 24	20% of bid OR \$3M cap (FAR 52.228-1)
Performance Bond	At award + within bid-guarantee window (typically 10 cal days)	SF 25	100% of contract price (FAR 52.228-15 if award > \$150K)
Payment Bond	Same as Performance Bond	SF 25A	100% of contract price

The **bondability letter** describes the surety's willingness to issue the **Performance + Payment bonds at award**. It does NOT cover the Bid Bond — the Bid Bond is issued separately and goes to the offer. See `07-bid-bond-form-template.md`.

F. If the surety is not Treasury Circular 570 listed

Per FAR 52.228-15(d), bonds may be supported by: 1. Corporate surety on Treasury Circular 570 (preferred) 2. Individual surety with pledged assets (per FAR 52.228-11 / 52.228-17) 3. Postal money order, certified check, cashier's check 4. Irrevocable Letter of Credit (per FAR 52.228-14) 5. Eligible Treasury bonds or notes

For a small-business interior-renovation contract at this magnitude, **Treasury Circular 570 corporate surety is by far the most common and the most accepted by federal COs**. Firms using individual surety or IRC frequently encounter additional CO scrutiny and slower award processing. **Strongly prefer corporate surety.**

G. Outreach

Send the bonding-agent outreach email at `outreach/03-email-bonding-agent.md` to the firm's regular bonding agent / broker on **Mon 2026-05-25 EOD**. Surety underwriting cycle for known clients is typically 3–5 business days; new-client underwriting can be 10–15 business days (which would be too long for this bid window). If the firm is new to bonding, escalate immediately.

Bid Bond — SF 24 fill guide and penal-amount calculation

A bid bond is a one-page Standard Form 24 (Bid Bond) that the bonding agent issues for the offeror.

Required with the offer per Section L paragraph (a)(2) NOTE:

"NOTE: If a bid bond is required (SF1442, Page 1, Block 13B), scanned copies must be submitted with submission of the quote. The bid bond must be a SF 24."

A. Bid bond mechanics (FAR 52.228-1)

Per FAR 52.228-1 verbatim:

**(a) Failure to furnish a bid guarantee in the proper form and amount, by the time set for opening of bids, may be cause for rejection of the bid.*

(b) The bidder shall furnish a bid guarantee in the form of a firm commitment, e.g., bid bond supported by good and sufficient surety or sureties acceptable to the Government, postal money order, certified check, cashier's check, irrevocable letter of credit, or, under Treasury Department regulations, certain bonds or notes of the United States...

(c) The amount of the bid guarantee shall be 20 percent of the bid price or \$3,000,000, whichever is less."

B. Penal-amount calculation

Bid Total	Bid Bond Penal Amount (20% of bid)	Notes
\$300,000	\$60,000	
\$400,000	\$80,000	
\$475,000 (mid-target)	\$95,000	
\$500,000	\$100,000	
\$600,000	\$120,000	
\$700,000	\$140,000	
\$1,000,000	\$200,000	
\$5,000,000	\$1,000,000	

\$15,000,000	\$3,000,000 (cap)	\$3M cap binds at bids ≥ \$15M
--------------	-------------------	--

For this contract — bid envelope \$300K–\$700K — penal amount is **\$60K–\$140K. Cap is not binding.**

C. SF 24 form fill (bonding agent populates; offeror confirms)

BID BOND (Standard Form 24, Rev 10/93) DATE BOND EXECUTED: [Date – within 30 days of bid submission] PRINCIPAL (legal name and address): RK Residential Homes and Commercial Constructions, LLC dba Blue Print Constructs [Address] [City, State, ZIP] TYPE OF ORGANIZATION (X one): [] Individual [] Partnership **[X]** Corporation [] Joint Venture [] LLC STATE OF INCORPORATION: [State] SURETY(IES) (name and address each): [Surety Name] [Surety Address] PENAL SUM OF BOND: PERCENT AMOUNT (NOT TO EXCEED) CENTS 20% of bid **\$[USER TO FILL – 20% of bid]** .00 DATE OF BID: 04 JUN 2026 INVITATION FOR BID NUMBER: W50S7626QA001 OBLIGATION: We, the Principal and Surety(ies), are firmly bound to the United States of America (hereinafter called the Government) in the above penal sum. For payment of the penal sum, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally. However, where the Sureties are corporations acting as co-sureties, we, the Sureties, bind ourselves in such sum "jointly and severally" as well as "severally" only for the purpose of allowing a joint action or actions against any or all of us. For all other purposes, each Surety binds itself, jointly and severally with the Principal, for the payment of such sum only as is set forth opposite the name of such Surety. If no limit of liability is indicated, the limit of liability is the full amount of the penal sum. CONDITIONS: The Principal has submitted the bid identified above. THEREFORE: The above obligation is void if the Principal – (a) (1) Upon acceptance by the Government of the bid identified above, executes such further contractual documents as may be required by the terms of the bid as accepted within the time specified (ten (10) days unless a different time is specified) after receipt of the forms by the Principal; and (2) gives such bond(s) as may be specified in the bid; or (b) In the event of failure to execute such further contractual documents and give such bonds, pays the Government for any cost of procuring the work which exceeds the amount of the bid. Each Surety executing this instrument agrees that its obligation is not impaired by any extension(s) of the time for acceptance of the bid that the Principal may grant to the Government. Notice to the Surety(ies) of extension(s) is waived. However, waiver does not apply to any extension(s) over 60 calendar days in the aggregate beyond the acceptance period set forth in the bid. WITNESS: The Principal and Surety(ies) executed this bid bond and affixed their seals on the above date. PRINCIPAL:

Signature(s)
Name(s) and Title(s) (Typed) _____ State of Incorp.
Liability Limit \$ _____ Name(s) and Address(es)

Corporate Seal

D. Submission mechanics

Step	Detail
Surety issues SF 24 in wet-ink	1–3 business days after bonding agent confirms bid amount
Wet-ink original retained on file	At firm + at surety; required for any post-award protest defense
Scanned copy attached to submission email	At ≥ 300 DPI; legible all blocks
Filename	W50S7626QA001_BidBond_SF24_Blue Print Constructs.pdf
Wet-ink original may need to follow scanned copy by mail	[VERIFY VS SECTION L] — most ANG / federal contractors using e-bond accept the scanned copy + retained wet-ink-on-file as final; CO can request mailed original at award. Confirm with CO Capt Crabtree at RFI cycle if uncertain.

E. Surety alternatives (if SF 24 cannot be issued in time)

Per FAR 52.228-1(b), bid guarantees may be in any of the following firm-commitment forms:

Alternative	Notes
Bid bond (SF 24)	Standard — preferred
Postal money order	Practical only at low penal amounts (\$1K cap on USPS Money Orders)
Certified check	Drawn on a federally-insured bank; payable to "United States of America"
Cashier's check	Drawn on a federally-insured bank; payable to "United States of America"
Irrevocable Letter of Credit (FAR 52.228-14)	From a federally-insured bank; expiry must extend ≥ 60 days post-bid acceptance period

Treasury bonds or notes	Per Treasury Department regulations
-------------------------	-------------------------------------

For a \$475K bid, the Bid Bond penal amount of \$95K can ONLY be reasonably backed by a bid bond OR an Irrevocable Letter of Credit. Cashier's / certified check at \$95K is impractical for cash-flow. **Use SF 24 bid bond.**

F. Bid-bond return

Per FAR 52.228-1(b): - Unsuccessful bidder: Bid Bonds returned by CO as soon as practicable after bid opening. - Successful bidder: Bid Bond returned upon execution of contract documents and Performance/Payment bonds.

G. Bid-bond default (consequence of withdrawal or non-execution)

Per FAR 52.228-1(d) + (e): - If the successful bidder fails to execute contractual documents within 10 days after acceptance, the CO may terminate the contract for default. - The bidder is liable for any cost of acquiring the work that exceeds the amount of the bid, with the Bid Bond available to offset the difference.

Lesson: Don't withdraw a bid after it's accepted unless willing to forfeit the bid-bond penal amount.

H. Order timing

Send the bonding-agent outreach email (outreach/03-email-bonding-agent.md) on **Mon 2026-05-25 EOD**. The bonding agent forwards to surety; surety underwriting cycle is 3–5 BD for known clients (so SF 24 ready by ~ Wed 2026-06-03). For new clients, 10–15 BD — ensure firm is not new-to-bonding, or escalate.

I. Common pitfalls

Pitfall	Consequence	Mitigation
SF 24 issued in wrong amount (e.g., based on a draft bid that changed)	Rejected for non-conforming amount	Lock final bid by Wed 6/3 EOD; surety re-issues SF 24 if amount changes
SF 24 issued for solicitation number with typo	Rejected as non-conforming	Verify W50S7626QA001 (no I/O confusion)
Surety not Treasury Circular 570 listed	Rejected	Verify at https://www.fiscal.treasury.gov/surety-l
SF 24 single-bond limit < penal amount	Rejected	Verify surety's single-bond limit ≥ penal amount; co-surety arrangement if needed

Wet-ink original delayed in mail	CO may award based on scan, but require mail	Send scan with bid; mail wet-ink immediately after submission
Power of Attorney expired or missing	Rejected	Surety attaches valid POA with the SF 24

Davis-Bacon Act compliance — WD TX20260270 acknowledgment

This is a **construction contract** (not a service contract), so **Davis-Bacon Act (DBA) applies, not the Service Contract Act (SCA)**. The Wage Determination is **TX20260270, dated 01/02/2026, Tarrant County, Building Construction**, embedded in the solicitation Section J.

A. DBA applicability

Attribute	Value
Statute	40 USC §3141 et seq. (Davis-Bacon Act of 1931, as amended)
FAR clauses	52.222-6 (rate requirements), 52.222-7 (withholding), 52.222-8 (payrolls/records), 52.222-9 (apprentices), 52.222-10 (Copeland Act), 52.222-11 (subcontracts), 52.222-12 (debarment), 52.222-13 (compliance), 52.222-14 (disputes), 52.222-15 (eligibility)
Wage Determination	TX20260270 (Mod 0, dated 01/02/2026; supersedes TX20250270)
Construction Type	Building Construction
County	Tarrant County, Texas
Effective period	From the date the contract is awarded, through completion of work

B. Acknowledgment language (for the offer)

Include a 1-paragraph acknowledgment in the offer (or the Schedule of Prices notes section) so the CO sees DBA literacy explicitly:

Davis-Bacon Wage Determination Acknowledgment: Blue Print Constructs acknowledges that this contract is subject to the Davis-Bacon Act and that Wage Determination TX20260270 (Modification 0, dated 01/02/2026, Tarrant County, Building Construction) applies to all on-site trade labor under this contract. Blue Print Constructs commits to: 1. Paying all classifications of laborers and mechanics at not less than the wage rates and fringe benefits listed in WD TX20260270. 2. Posting WD TX20260270 at the jobsite in a conspicuous location accessible to laborers and mechanics. 3. Submitting weekly certified payroll on Form WH-347 for both Blue Print Constructs and each subcontractor

performing work on the contract. 4. Maintaining payroll records for 3 years from contract completion. 5. Flowing down DBA requirements via FAR 52.222-11 to each subcontractor of any tier. 6. Requesting wage classification conformance via SF 1444 from the Contracting Officer if any trade classification not on WD TX20260270 is required. 7. Complying with the Copeland Anti-Kickback Act (FAR 52.222-10) – no kickbacks from contractor or subcontractor personnel. 8. Complying with apprentice/trainee ratio requirements (FAR 52.222-9) – registered apprenticeship programs only. In addition, Blue Print Constructs acknowledges and complies with all related labor-standards FAR clauses cited in Section I of this solicitation.

C. Trades expected on this project (from 04-scope-of-work.md)

The following trade classifications from WD TX20260270 are expected on the project:

Trade	WD listed	Notes
Carpenter	Yes (likely under CARP-class entries)	Framing, GWB, casework, doors
Drywall / Taper	(Falls under Carpenter or has separate DRYW-class)	GWB hang/finish
Electrician	Yes (under ELEC-class)	UFC 3-501-01 work; sub work
Plumber	Yes (under PLUM-class)	Sink relocation; sprinkler-pipe coordination
Sheetmetal Worker	Yes (under SHEE-class)	HVAC duct mod
Pipefitter	Yes (under PIPE-class)	Sprinkler-piping mod
Painter	Yes (under PAIN-class)	Walls + doors + trim
Sprinkler Fitter	Yes (under SPRI-class)	Fire-suppression mod
Glazier	Yes (under GLAZ-class)	Credential window install
Laborer	Yes (multiple groups)	Demo, debris, FOD-cleanup
Truck Driver	Yes	Material delivery
Operating Engineer	Yes (under ENGI-class)	Forklift operations

(If insulation work needed) Asbestos Worker / Heat & Frost Insulator	Yes — listed at \$33.23 + \$7.52 fringe	Less likely for this project
(If lift work) Elevator Mechanic	Yes — listed at \$51.93 + \$38.435+a+b fringe	Not applicable to this project

■ ■ **Re-pull the full WD from SAM.gov** for the latest rates — the version embedded in the solicitation Section J is the contract-binding version, but the full WD has 30+ trade entries that the text extractor in our pipeline did not fully capture. See *prevailing-wages.md* for the full mechanics.

D. Conformance for missing trades

If any trade classification needed for this project is **not on WD TX20260270**, the contractor must request conformance via **SF 1444** (Conformance of Wage Rates) submitted to the CO. The CO forwards to DOL Wage and Hour Division for ruling. Conformance typically takes 2–6 weeks; conformed rate is binding from the conformance date.

For this project, the standard trades listed above should cover the entire scope. The mantrap electronic-lock kit installation is performed by Electricians + Door/Hardware specialists (no separate WD class required). The credential window glazing is performed by a Glazier (standard WD class).

E. WH-347 weekly certified payroll mechanics

Element	Detail
Form	WH-347 (DOL Form 1215-0149) — available at https://www.dol.gov/agencies/whd/forms
Frequency	Weekly for prime + each subcontractor performing on-site work
Submission	To the CO (or to the local DOL Wage and Hour office, if directed)
Statement of Compliance	WH-348 (page 2 of WH-347 form) — signed by employer or authorized representative
Retention	3 years from contract completion
Apprentices/Trainees	Must be in registered programs; apprentice-to-journeyman ratio per FAR 52.222-9

F. Reach-back to subs (FAR 52.222-11)

Every sub-tier subcontract that includes laborers or mechanics on-site must: - Include the FAR 52.222-6 wage-rate flow-down clause - Include the WD TX20260270 by reference (or attached) - Include the WH-347 weekly certified payroll requirement - Include the FAR 52.222-9 apprentice-program requirement

The prime collects WH-347 from each sub weekly and submits to the CO.

G. Common DBA execution errors

Error	Consequence	Mitigation
Wrong wage code (e.g., paying carpenter rate to a painter)	CO funds withholding; DOL investigation possible	Train PM + sub PMs on WD trade classifications
Apprentice-to-journeyman ratio exceeded	DOL violation finding	Track ratio per trade per pay period
Fringe benefit improperly handled (rolled into base rate without disclosure)	DOL violation finding	Disclose fringe separately on WH-347
Late or missing WH-347	CO funds withholding	Make payroll cycle Friday → submit Monday
Sub fails to submit WH-347	Prime is responsible — sub progress payment held	Make WH-347 submission a sub-contract condition for progress payment
Compensation deductions not authorized by Copeland Act	DOL violation; criminal liability possible	Only authorized deductions (taxes, court orders, pre-authorized deductions)
Failure to post WD at jobsite	DOL violation finding	Post WD on Day 1; in conspicuous location accessible to laborers
Use of un-conformed trade classification	Risk of debarment	Use SF 1444 for any unique classification; do not improvise

H. Service Contract Act — does NOT apply

The SCA (41 USC §6701 et seq.; FAR 52.222-41 et seq.) applies to **service contracts**, not construction. This contract is a construction renovation under FAR Part 36; SCA does not apply. The WD attached is a Davis-Bacon construction WD, not an SCA service WD.

If a future modification adds a service component (e.g., post-renovation maintenance), SCA applicability would need to be re-evaluated.

I. Submission

The DBA acknowledgment is **NOT a separate document** — it can be: - Included as a paragraph in the Schedule of Prices notes (preferred), OR - Included as a standalone 1-page acknowledgment document attached to the offer (also acceptable)

Filename if standalone: W50S7626QA001_DBA_Acknowledgment_Blue Print Constructs.pdf

J. Where to access the full WD

- **SAM.gov Wage Determinations** at <https://sam.gov/wage-determinations> (search TX20260270)
- **DOL WHD** at <https://www.dol.gov/agencies/whd/>
- **Embedded in this solicitation Section J** (governing version unless superseded)

Site visit attendance memo — pre-formatted for B1672 + B1675

If a site visit is approved by the 136 CES Operations Managers (per the exception request in outreach/02-email-136-aw-facility-poc.md), use this memo template to capture findings during the walk. Each room (B1672 Command Post, B1675 NDI Room) gets a separate section because their scopes are functionally distinct.

A. Memo header

SITE VISIT MEMORANDUM Solicitation W50S7626QA001 – Alter Command Post and NDI Room 136th Airlift Wing, Naval Air Station Joint Reserve Base Fort Worth, TX 76127 DATE OF VISIT: [Date] TIME ARRIVED: [Time] TIME DEPARTED: [Time] GOVT ESCORT: [136 CES POC name + title] ATTENDEES: Blue Print Constructs representatives (names: **[USER TO FILL]**) WEATHER: [Conditions – sometimes affects access route observations] ARRIVAL POINT: NAS JRB Visitor Control Center, [Gate name] Pass type: [Daily Visitor / Long-term] Pass numbers: [USER TO RECORD]

B. Building 1672 Command Post observations

SECTION I – BUILDING 1672 COMMAND POST RELOCATION (CLIN 0001)

GENERAL OBSERVATIONS: Building footprint accessed: [Approx SF] Renovation footprint: [Approx SF – area covered by drawings Sheet A-1] Adjacent occupied spaces: [Yes / No – list adjacent rooms or hallway uses] Existing photo studio (Rm 143): [Confirmed Yes / No] Existing rack system: [Approx dimensions and quantity] Existing studio lighting: [Type – fluorescent / LED / cyclorama / etc.] Existing photo backdrop bracket: [Approx dimensions] Re-installation site (BLDG 1669 Rm 112): [Visited Yes / No] EXISTING CONDITIONS – VERIFY AGAINST SOW + DRAWINGS: Partition walls (existing): Approx LF to be demolished: [USER TO MEASURE] Approx LF to be retained: [USER TO MEASURE] Substrate: [Drywall / CMU / other] Sound deadening on existing walls: [Yes/No – specify type] Flooring (existing): Substrate: [Concrete / VCT / carpet / mixed] VCT condition: [Good / fair / replacement needed] Carpet tile condition: [Good / fair / replacement needed] Cove base condition: [Good / fair / replacement needed] Drop ceiling (existing): Type: [2x4 grid / 2x2 grid / coffered] Condition: [Good / fair / replacement needed] Height AFF: [USER TO MEASURE] Above-ceiling clearance to deck: [USER TO MEASURE] Cabinets, sink, counters (existing): Cabinets condition: [Good / fair / replacement needed] Sink type: [Stainless / cast / other] Counter material: [Laminate / quartz / solid surface] To-be-replaced confirmed: [Yes / No] Doors (existing): Solid wood doors present: [Yes / No] Existing hardware – Stanley/Best Lock-Core compatible: [Yes / No] Door alarm on emergency exit: [Yes / No] Mantrap exists (current): [Yes / No] Credential window exists: [Yes / No] Electrical service: Panel(s) location: [USER TO RECORD] Panel manufacturer: [USER TO RECORD] Spare breaker capacity: [USER TO RECORD] Existing receptacle counts (general / TV / GFCI): [USER TO COUNT] Existing lighting fixture type: [USER TO RECORD] Battery-backup emergency lights: [Yes / No – count] Exit signs: [Count]

SECTION II – BUILDING 1675 NDI ROOM (CLIN 0002)

GENERAL OBSERVATIONS: Building 1675 access: [Building / floor / room number]
 Decommissioned AFFF room footprint: [Approx SF] Adjacent occupied spaces: [Yes / No]
 AFFF system status: [Decommissioned per SOW §1.2 – confirmed Yes / No] AFFF
 DECOMMISSIONING – VERIFY: AFFF tanks present: [Yes / No – if Yes, dimensions +
 condition] AFFF piping headers present: [Yes / No – extent] AFFF discharge nozzles: [Yes
 / No – count + accessible] AFFF sumps / floor drains: [Yes / No – count] AFFF-impacted
 floor coatings: [Yes / No – extent] Decommissioning documentation: [Available Yes / No –
 request copy] Signage / labeling indicating PFAS hazard: [Yes / No] EXISTING CONDITIONS:

 Location: ☐ Water + power for construction: Power source: [Existing panel circuit /
 temporary] Water source: [Hose-bib location] Connection responsibility: [Contractor per
 SOW §6] Daily clearout: Required? Yes per SOW §10. End-of-day storage location: ☐ FOD
 prevention zone: Adjacent flightline / aircraft proximity: ☐ FOD-walk frequency
 required: [Daily – confirmed] After-hours / weekend work: Permitted? Yes per SOW §11
 with 1-week advance written CO request.

E. Closeout

SECTION IV – DECISIONS / ACTIONS

Open items requiring CO RFI follow-up: [List] Updated bid envelope (after site visit): CLIN
 0001: \$[**USER TO FILL**] (was \$[prior estimate]) CLIN 0002: \$[**USER TO FILL**] (was \$[prior
 estimate]) Total: \$[**USER TO FILL**] Updated contingency: CLIN 0001: [%] CLIN 0002: [%]
 Sub-quote impact: Sub | Impact Secure doors + hardware | ☐ Electrical | ☐ HVAC | ☐
 Memo prepared by: [PM signature] Date: [Date] Distribution: [PM, estimator, sub leads]

F. Use during pricing

1. Update takeoff-template.json quantities with Section II.B and Section III.B "Qty After Visit" values.
2. Re-run 05-bid-schedule-mapping.md § C markup envelope with updated direct costs.
3. Adjust takeoff-template.json _meta.contingency_pct_clin_0001 and
 _meta.contingency_pct_clin_0002 per Section IV decisions.
4. Re-confirm bid bond amount with bonding agent if total moves > 10% from prior estimate.
5. Update 01-price-proposal.md § C/D internal cost build-ups.

G. Filing

Attach the completed memo to the firm-internal bid file. **Do NOT include in the proposal package** — site-visit memos are internal working documents. The proposal carries only the SF 1442 + Schedule of Prices + Subfactor 1 + Subfactor 2 + (optional past-perf, bondability letter, key personnel).

If the CO asks at evaluation whether the offeror visited the site, be ready to confirm Yes (or describe the alternative — e.g., field-verify post-award per FAR 52.236-3).

Submission checklist — Thursday 2026-06-04

The morning-of mechanics. Use this as the literal step-by-step list on submission day.

A. Day-before review (Wed 2026-06-03 EOD)

- ■ Final SF 1442 signed (wet-ink Block 20b) by authorized officer; scanned at ≥ 300 DPI
- ■ Schedule of Prices typed, totals match SF 1442 Block 22
- ■ Subfactor 1 list (equipment / materials / labor disciplines) finalized — 2–4 pages
- ■ Subfactor 2 schedule (90-day Gantt) finalized — 1 page
- ■ Bid bond SF 24 issued by surety; scanned at ≥ 300 DPI
- ■ Wet-ink original of SF 1442 + SF 24 retained on file
- ■ Acknowledgment of Amendment 0001 confirmed in SF 1442 Block 19
- ■ (Optional) Past performance volume — 2–3 prior projects
- ■ (Optional) Bondability letter from surety — within 30 days, on letterhead
- ■ (Optional) Key personnel CVs — Site Super, Safety Mgr, QC Mgr, PM
- ■ All files renamed per consistent convention W50S7626QA001_[document]_[FirmName].pdf
- ■ Final review by PM + Authorized Signer (independent reads)
- ■ Email draft prepared in PM's inbox (draft saved, not sent)

B. Submission day morning (Thu 2026-06-04)

Phase 1 — final SAM check (0700 CDT)

- ■ Log in to <https://sam.gov/>
- ■ Confirm UEI Active (export to PDF for firm bid file)
- ■ Confirm Reps & Certs within 12 months (export)
- ■ Confirm CAGE active + EFT current + TIN matches IRS (export)
- ■ Confirm exclusions search clean on entity name + UEI + key principals (export)
- ■ Confirm SPRS Basic Assessment current (export)

■■ If any SAM item fails this morning: STOP. Cannot submit. Escalate immediately to firm Entity Administrator + Contracts Admin.

Phase 2 — final attachment compile (0900 CDT)

- ■ Authorized Signer signs final SF 1442 (if not already done Wed)
- ■ PM scans signed SF 1442 + bid bond at ≥ 300 DPI

- ■ PM verifies attachment file integrity (open each PDF, confirm legible)
- ■ PM stages all attachments in one folder for the email

Phase 3 — email composition (1000 CDT)

Use this email body template:

TO: 136.AW.MSC@us.af.mil CC: [PM email]; [Authorized Signer email] BCC: [Bonding agent email]; [Lead estimator email] SUBJECT: Quote – W50S7626QA001 – Alter Command Post + NDI Room – Blue Print Constructs (UEI: LM4YHVQ71QG7) Captain Crabtree: Pursuant to Solicitation W50S7626QA001 (Issued 03 May 2026, due 04 June 2026), please find attached our firm-fixed-price quote for "Alter Command Post and Nondestructive Inspection (NDI) Room" at the 136th Airlift Wing, Naval Air Station Joint Reserve Base Fort Worth. Acknowledgment of Amendment W50S7626QA0010001 is reflected in SF 1442 Block 19. Attachments enclosed: 1. Signed SF 1442 (Solicitation, Offer, and Award) 2. Schedule of Prices (CLIN 0001 + CLIN 0002 + Total) 3. Subfactor 1 – List of equipment, materials, and labor disciplines 4. Subfactor 2 – Project schedule (90-day Gantt) 5. Bid Bond SF 24 (scanned) [optional] 6. Past Performance volume – 2 prior similar projects [optional] 7. Bondability letter – [Surety name] [optional] 8. Key Personnel CVs This offer is firm-fixed-price for each CLIN, priced independently (per Section L paragraph (a)(1)). The Government may award one CLIN without the other. Acceptance period: 90 calendar days from offer due date (per SF 1442 Block 17). Davis-Bacon Wage Determination TX20260270 (Modification 0, dated 01/02/2026, Tarrant County, Building Construction) is acknowledged and applies. Insurance minimums per FAR 52.228-5 + Section L (g) will be in effect at award. Blue Print Constructs's SAM.gov registration is active and Reqs & Certs are current as of the offer date; SPRS NIST 800-171 Basic Assessment is on file. Please confirm receipt of this submission. We are available to respond to any clarification questions during the evaluation period. Sincerely, [Authorized Signer name] [Title] Blue Print Constructs [Phone] [Email] [UEI / CAGE]

Phase 4 — Send and confirm (1200 CDT — 3-hour buffer ahead of likely 1500 CDT close)

- ■ Final read-through of email + all attachments
- ■ Request **Delivery Receipt + Read Receipt** (Outlook → Options)
- ■ **SEND**
- ■ Save the SENT copy + delivery confirmation to firm bid file
- ■ Take screenshot of "Sent" timestamp showing local time + UTC
- ■ Verify in Sent folder that the email shows recipient + attachments + timestamp

Phase 5 — Receipt verification (1230–1300 CDT)

- ■ Watch for Delivery Receipt automated reply
- ■ Watch for Read Receipt (if 136 AW MSC inbox is configured to send)

- If no Delivery Receipt by 1300 CDT: phone CO Capt Crabtree (817-852-3307) to confirm receipt
- If CO unavailable: phone PE Maj Norton (817-852-3323)
- If PE unavailable: phone PM David Shamburger (817-852-3328)

Phase 6 — Hard cutoff (1500 CDT — likely Block 13 close time)

DO NOT SEND AFTER 1500 CDT. Block 13 of SF 1442 specifies the closing time. Late submission is non-conforming and rejected per FAR 52.215-1(c)(3) (Late Submissions, Modifications, Revisions, and Withdrawals of Proposals — incorporated by reference for negotiated procurements; analog rule for SAP per FAR 13.106-3).

C. File-naming convention

All attachments follow this pattern:

W50S7626QA001_[document]_Blue Print Constructs.pdf

Examples: - W50S7626QA001_SF1442_AcmeConstruction.pdf -
 W50S7626QA001_ScheduleOfPrices_AcmeConstruction.pdf -
 W50S7626QA001_Subfactor1_AcmeConstruction.pdf -
 W50S7626QA001_Subfactor2_Schedule_AcmeConstruction.pdf -
 W50S7626QA001_BidBond_SF24_AcmeConstruction.pdf -
 W50S7626QA001_PastPerformance_AcmeConstruction.pdf -
 W50S7626QA001_BondabilityLetter_AcmeConstruction.pdf -
 W50S7626QA001_KeyPersonnel_AcmeConstruction.pdf

D. Email subject line

Use the format:

Quote — W50S7626QA001 — Alter Command Post + NDI Room — Blue Print Constructs (UEI: LM4YHVQ71QG7)

This makes the email instantly recognizable in the CO's inbox + serves as proof-of-receipt language.

E. Attachment size

Item	Approx PDF size
SF 1442 (signed scan, 2 pages)	2–4 MB
Schedule of Prices	< 1 MB

Subfactor 1 list	1–2 MB
Subfactor 2 schedule (Gantt)	1–2 MB
Bid Bond SF 24 (scan)	1–2 MB
Past Performance	2–4 MB
Bondability letter	< 1 MB
Key personnel	1–2 MB
Total	~8–18 MB

Most enterprise email systems (especially .mil accounts) accept attachments up to 25 MB. If total > 20 MB, use a single ZIP file or merged PDF to consolidate.

F. Backup submission methods (if email fails)

If by 1300 CDT no delivery confirmation has come through and CO cannot be reached by phone:

1. **Resend with reduced attachment size** (consolidate into ZIP or compressed PDF)
2. **Try alternate CO email:** `donald.crabtree.3@us.af.mil` (Capt Crabtree direct, per SOW §13.1) — copying `136.AW.MSC@us.af.mil`
3. **Phone PE Maj Norton at (817) 852-3323** — explain situation; he can confirm with CO or provide alternate path
4. **In extremis: hand-deliver** to NAS JRB Visitor Control Center (817-782-3058) with arrangement for CO pickup — this is highly unusual but valid for late-stage technical-failure scenarios

Document every attempted submission method + timestamp + reply (or lack thereof) in the firm bid file. If submission is delayed past 1500 due to documented Government IT failure, the CO has discretion under FAR 13.106-3(a)(5) to accept; this is a CO judgment call.

G. Post-submission

- ■ Save submitted email + all attachments + delivery confirmations to firm bid file
- ■ Save SAM exports + Reps & Certs export from morning to firm bid file
- ■ Notify bonding agent that bid is submitted (so they can prepare for award-bond issuance)
- ■ Notify subs that bid is submitted (no further sub-quote changes needed)
- ■ Decompress on the weekend; reconvene Mon for award-window monitoring
- ■ Set Outlook reminder for 2026-06-15 (estimated award-window start)

H. Don't-forget items

- **Wet-ink original SF 1442** retained on file at firm
- **Wet-ink original SF 24** retained on file at firm + at surety
- **All subcontractor quotes** filed with the bid (firm-internal — for award-time sub commitments)
- **Insurance carrier confirmation** — broker confirms FAR 52.228-5 + Section L (g) minimums available at award
- **SPRS Basic Assessment** current
- **CPARS export from morning** filed with the bid (proof of past-performance currency)

RFI Cover Letter — consolidated questions to CO

This is the master RFI document. Send via email to 136.AW.MSC@us.af.mil per Section L paragraph (f) verbatim:

"Requests for Information (RFIs): Requests for Information must be submitted in writing through email to 136.AW.MSC@us.af.mil. RFIs will not be accepted after the date and time stated on the solicitation (SAM.gov) notice, unless a response is deemed to be in the best interests of the Government."

Send by Friday 2026-05-29 EOD (gives the CO 4 business days through Tuesday 6/2 to respond, which is also the lead time before the bid envelope locks Wed 6/3).

A. Cover letter

[Date – Friday 2026-05-29] To: Captain D. Jake Crabtree, Contracting Officer 136 AW Mission Support Contracting c/o 136.AW.MSC@us.af.mil From: Blue Print Constructs UEI: LM4YHVQ71QG7 CAGE: 9LET0 Authorized contact: [PM name + email + phone] Subject: RFI – Solicitation W50S7626QA001 – Alter Command Post and Nondestructive Inspection Room Captain Crabtree: Pursuant to Section L paragraph (f) of the captioned solicitation, [Firm Name] respectfully submits the following six (6) consolidated requests for information. We have reviewed the SF 1442 cover form, the SF 30 Amendment 0001, the Statement of Work dated 05/03/2026, and the Plans dated 05/12/2026 (Sheet A-1 of 2 fully reviewed; Sheet 2 of 2 partially reviewed in our text-extraction pass). Each question is brief and specific so that the Government may issue a single SF 30 amendment incorporating clarifying responses, if your office deems it appropriate to do so. Sincerely, [Authorized Signer or PM name] [Title] Blue Print Constructs

B. Six questions

Question 1 — Closing date and time

Reference: SF 1442 Block 13.

Question: We have read the closing date as **04 June 2026** from the form-field value of SF 1442 Block 13. Could the Government please confirm: - (a) The exact closing date of 04 June 2026, AND - (b) The exact closing hour and time zone (e.g., 1500 CDT)?

*Internal note: This question is critical because the form-field hour did not extract reliably from our PDF text-layer pass. **A 5-minute visual confirmation by the firm in Adobe Reader resolves this risk independent of the CO's response.** Send only if internal verification leaves residual uncertainty.*

Question 2 — Site-visit accommodation

Reference: SOW §4.3 (site visit "urged" prior to offer submission), §7 (14-business-day advance access request rule).

Question: SOW §4.3 urges site visits prior to offer submission. SOW §7 requires base-access requests no less than 14 business days prior to access. With the closing date 12 calendar days from today, a

standard-rule pre-bid site walk of B1672 and B1675 is administratively impractical. We request the Government's accommodation in one of two forms: - (a) Issue a one-time accelerated-processing exception for an escorted 30-minute walk through B1672 + B1675 by no more than 2 Blue Print Constructs personnel between Wednesday 28 May 2026 and Wednesday 03 June 2026, OR - (b) Confirm that an offeror submitting on field-verified-after-award basis (per FAR 52.236-3) will not be disadvantaged in the comparative evaluation.

We acknowledge that the choice between (a) and (b) is the Government's. Identifying contact: [PM name + email + phone].

Question 3 — B1675 NDI Room scope confirmation

Reference: SOW §1.2 + §2.2; Drawings Sheet 2 of 2.

Question: SOW §1.2 specifies "convert a former and decommissioned Aqueous Film Forming Foam (AFFF) room in Building B1675 for use as a NDI facility." SOW §2.2 enumerates the trade scope as "interior wall demolition and construction, painting, caulking, carpentry, and associated electrical, mechanical, and plumbing work." We have interpreted CLIN 0002 as a **space-conversion of B1675 to NDI-suitable space**, with NDI equipment to be installed by the Government post-renovation, and **no contractor scope for radiation shielding (lead-line), EMI/RF shielding, vibration isolation, or specialty NDI environmental controls**. Could the Government please confirm whether this interpretation is correct, and if not, identify the specialty-shielding or specialty-environmental scope that is contractor-furnished under CLIN 0002.

Question 4 — Existing fire-suppression and HVAC system documentation

Reference: Drawing General Note 9 (modify current fire-suppression to encompass new partitions); Drawing General Note 10 (balance HVAC); SOW §4.4 (drawings/as-builts for reference only).

Question: To enable accurate sub-quoting for fire-suppression and HVAC modification: - (a) What is the **manufacturer + model + system type (wet-pipe / dry-pipe / pre-action)** of the existing fire-suppression system serving B1672 and B1675? - (b) What is the **manufacturer + control-platform** of the existing HVAC building management system (e.g., Trane Tracer, Honeywell, Siemens, BACnet generic) at B1672 and B1675, for purposes of integrating the in-room HVAC override button? - (c) Can the Government make existing as-built drawings or system documentation available, or alternatively, schedule a maintenance-staff Q&A call between Blue Print Constructs and the relevant 136 CES facility-services point of contact?

Question 5 — AFFF-residue handling on B1675 demolition

Reference: SOW §1.2 (former AFFF room, decommissioned); §9 (Disposal); 136 Environmental Office.

Question: SOW §1.2 indicates the AFFF system is "decommissioned." For purposes of B1675 demolition pricing: - (a) Has the AFFF-impacted substrate (concrete coatings, sumps, piping headers, discharge nozzles, floor drains) been remediated to non-PFAS-impacted condition? OR - (b) Should the contractor anticipate **PFAS-conscious demolition** with TCEQ-permitted disposal beyond the SOW §9 standard universal-waste handling for paint-related materials?

If (b), is the 136 Environmental Office the operational coordination point, and is a specialty environmental sub anticipated?

Question 6 — NAICS code confirmation

Reference: SF 1442 cover page NAICS field; FAR 52.219-6 set-aside.

Question: We have read the applicable NAICS code as **236220 — Commercial and Institutional Building Construction, \$45.0M small-business size standard** based on the Product Service Code Z2AA and the scope of work. Could the Government please confirm the assigned NAICS code on the SF 1442 cover page, so that our SAM.gov small-business size assertion at the registered NAICS aligns precisely with this solicitation?

Internal note: This question is also resolvable via 5-minute visual review of the SF 1442 cover page. Send only if uncertainty persists.

C. RFI delivery

Item	Detail
Email to	136.AW.MSC@us.af.mil
CC	None (per Section L (f); CO may cc PE/PM internally)
Subject	RFI — Solicitation W50S7626QA001 — Blue Print Constructs
Date sent	Friday 2026-05-29 EOD
Format	PDF attachment + body text summarizing
Filename	W50S7626QA001_RFI_Blue Print Constructs.pdf

D. Expected response

Method	Detail
SF 30 amendment	If the Government finds the RFI material, an SF 30 amendment may be issued, modifying the solicitation. The amendment will need to be acknowledged in the SF 1442 Block 19.
Email reply	If the Government deems the RFI not material to the solicitation but useful, may reply by email; this would not amend the solicitation but would clarify intent.

No response	If the Government deems the RFI not in its best interest to address, no response will be issued. The offeror's submission must rely on the existing solicitation as written.
-------------	--

E. Tracking

Maintain an internal RFI tracker:

#	Question	Date Sent	G R	D R	R T	Effect on Bid
1	Closing date confirmation	[date]				
2	Site-visit accommodation	[date]				
3	B1675 scope confirmation	[date]				
4	Existing fire/HVAC system docs	[date]				
5	AFFF residue handling	[date]				
6	NAICS confirmation	[date]				

If responses come in close to bid close, decide which (if any) materially change the bid. If a Q3 response confirms specialty-shielding scope IS required, that's a 50%+ price increase — requires re-pricing. If a Q5 response confirms PFAS-impacted residue, that's 30–60% on CLIN 0002 demolition. Other questions are mostly procedural and don't change pricing materially.
